**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water supplies by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Fog picnic area or other localized areas where mosquitoes abide.

MOSQUITOES OUTDOORS: Make mist fogging application for temporary control of small populations of pests in tall grass, shrubbery and around lawns where these pests may hover or rest. Fog when air is still (wind not to exceed five miles per hour) only and would require frequent re-application to kill additional insects that may be drifting into area.

Do not wet the foliage since many oil base formulations are phytotoxic.

Do not fog when wind conditions exceed five miles per hour, be sure to start fogging on side from which breeze is blowing and let fog drift over area to be covered. The fog should not be applied at a close distance to shrubs and other plants.

Fogging is most effective if completed about two hours before area is to be used.

Application of this product to any body of water is prohibited.

Not for Electric or Power Sprayers or Hose-end attachments.

Do not dilute with anything else. Always use F-103 in a clean fogger.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

STORAGE: If container is damaged: Stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with the product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand, or sawdust. Sweep the contaminated absorbent onto a shovel and put the sweepings into a salvage drum. Dispose of wastes as below. Place any leaking container into a similar drum or glass container. Do not store, use, pour, or spill near heat or open flame.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple-rinse (or equivalent). ~~Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.~~ If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
