Dear Mr. Miller:

Subject: Labeling Amendment
EPA Reg. Nos. 655-790 655-791
Prentox Larva-Lur with Dylox
Your submissions dated 18 October 1996

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, has been received and reviewed, and the labeling is acceptable subject to the comment listed below. Please submit five (5) copies of your final printed labeling incorporating these changes before releasing your product for shipment. A stamped copy is enclosed for your records.

Update the statement "Do not contaminate water...wastes" under "Environmental Hazards" to read "Do not contaminate water when disposing of equipment washwaters".

Sincerely,

William Jacobs
Acting Product Manager (14)
Insecticide-Rodenticide Branch
Registration Division (7505C)

CAUTION

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or poison control center immediately. If possible, vomiting should be induced under medical supervision. Drink one or two glasses of water and induce vomiting or give anything by mouth to an unconscious or convulsing person.

If inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin: Remove contaminated clothing and wash affected areas with soap and water.

If in eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: Antidote — Atropine Sulphate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with Atropine only if symptoms of cholinesterase inhibition are present.

Manufactured by:

PRENTISS INCORPORATED

Plant: Kaolin Road, Sandersville, GA 31082
Office: C.B. 2000, Floral Park, NY 11002-2000

Under the Federal Insecticide, Fungicide, and Rodenticide Act no substance can be registered unless EPA has determined that it meets the requirements of the Act. 655-790

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

May be harmful if swallowed, inhaled or absorbed through the skin. Do not contaminate feed or food. Avoid prolonged contact with skin. Wash thoroughly after using and before eating or smoking. May cause eye irritation. Avoid eye contact.

Symptoms of Poisoning: A sense of "tightness" in chest, sweating, contracted pupils, stomach pains, vomiting, diarrhea.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife and is extremely toxic to aquatic invertebrates. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply when weather conditions favor drift from areas treated. Birds and other wildlife feeding in treated areas may be killed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ORNAMENTAL/TURF: Use LARVA-LUR for effective control of surface feeding Cutworms, Ants, Army Worms and Crickets around the outside of residential buildings and commercial buildings.

PERIMETER TREATMENT: For control of Ants, and Crickets around the outside of residential and commercial buildings, use LARVA-LUR as a broadcast treatment at the rate of 1/2 to 1 pound per 1,000 square feet of area around homes and buildings to control Pillbugs and Earwigs.

AREA TREATMENT: Apply 20 to 30 pounds of LARVA-LUR per acre to control listed insects.

MOUND TREATMENT FOR TEXAS HARVESTER ANT: Apply 2/3 to 1 cup of LARVA-LUR per mound for control of Texas Harvester Ant. Apply as a broadcast treatment over mound surface. Repeat application as needed. Inspect mound regularly, and repeat application if ant activity is spotted. Apply only by hand broadcast.
