U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 "M" St., S.W.

Washington, D.C. 20460

NOTICE OF PESTICIDE:

<u>x</u> Registration Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

655-800

Date of Issuance:

NOV 25 1997

Term of Issuance: Conditional

Name of Pesticide Product: Prentox Flea, Tick and Roach Control

Name and Address of Registrant (include ZIP Code):

Prentis, Inc.

21 Vernon Street C.B. 2000

Floral Park, NY 11001

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
- Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 655-800".
- Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.

PHYSICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Information: Do not apply this product in such a marzer as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried.

The Insect Growth Regulator in this product acts on the immanure life stages of cockroaches and fleas to prevent adults from developing. The natural pyrethrins and synergist in this product will give quick control of all exposed stages of all of the insects listed on this label which are contacted by the spray. Flea control on pets is important in the prevention of introduction of adult fleas indoors. When using this product, if fleas are a problem on pets, the pets should be treated with an effective registered flea control product, to prevent reinfestation from the reintroduction of fleas indoors.

As a surface spray: For initial clean up of severe infestations of listed insects, dilute at a rate of 1 part concentrate and 4 parts water. For treatment of normal infestations, dilute 1 part concentrate with 9 parts water. If surface application is used, spray floors, walls and other surfaces, applying at a rate of 1 gallon per 1000 square feet of surface.

To control ants, brown dog ticks, clovermites, cockroaches (American, German and Oriental), crickets, silverfish and spiders, use a good - sprayer adjusted to deliver a coarse, wet spray. Direct the spray into hiding places, cracks and crevices, behind shelves and drawers. For silverfish, spray bookcases. For ants, spray trails, nests and points of entry.

To control fleas in non-carpeted areas, dilute 1 part concentrate and 19 parts water. To control fleas in carpeted areas, dilute 1 part concentrate and 14 parts water. Thoroughly spray infested areas, pet beds, ressing areas, nearby cracks and crevices, along and behind baseboards, moldings, window and door frames and localized areas of floor covering. To prevent reinfestation from the reintroduction of fleas indoors by infested pets, pets should be treated with an effective registered flea control product.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

STORAGE: Store in cool, dry area. If container is damaged: Stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with the product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand or sawdust. Sweep the contaminated absorbent onto a shovel and put the sweepings into a salvage drum. Place leaking container into a similar drum or glass container. Mark the container with name of product, ingredient statement, precautionary statements, and signal word. Contact us for a replacement label. Do not store, use, pour or spill near beat or open flame.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
