TITAN PLUS

INSECT KILLER

DIRECTIONS FOR USE

Shake well before using. Hold can upright with nozzle pointing away from face and pressurized spray.

SHAKE BEFORE USING. Hold can upright with nozzle pointing away from face and pressurized spray.

TO KILL FLYING INSECTS. Flyes, mosquitos, etc. flying over head.

INDOORS. Use indoors and windows and spray with circular swinging motion. Fill room with mist. Keep three feet from walls, fabrics and furniture. Remove birds and ferns from room before spraying. Do not remain in treated areas and ventilate the area after treatment.

OUTDOORS. The number of annoying insects can be reduced by misting or fogging surroundings when air is quiet. Tables, chairs and nearby foliage may be sprayed directly.

To kill mosquitoes, flies and other small flying insects on cuts, scratches and foundation plantings, mist thoroughly. Repeat as reinfestation occurs.

TO KILL CRAWLING INSECTS

INDOORS. Ants, roaches, waterbugs, silverfish, spiders, crickets, palmetto bugs and certain others. Spray into hiding places such as cracks and crevices, under baseboards, under sinks, in closets and in refuse areas. Spray insects directly if possible. Repeat as necessary.

FLEAS. Spray floors and sleeping quarters of pets as often as necessary.

BEDBUGS. Spray baseboards and moldings. Spray mattresses particularly around tufts and seams. Spray all crevices of bed frame. Repeat as necessary.

TITAN PLUS

INSECT KILLER

DIRECTIONS FOR USE

SHAKE BEFORE USING. Shake can up and down with cap open, away from face and feet, at least 10 times.

TO KILL FLYING INSECTS: Shake can up and down with cap open, away from face and feet, at least 10 times.

INDOORS: Close doors and windows and spray all air with a fine sweeping motion. Do not spray directly on food, dishes, or furniture. Remove beds and furniture to improve spraying. Do not remain in treated areas and ventilate the area after treatment.

OUTDOORS: The nuisance of annoying mosquitoes can be reduced by misting or fogging areas outdoors where mosquitoes breed. Do not spray directly on people or pets.

For mosquitoes, flies, and other annoying insects, spray outdoors and indoors. Do not spray directly on people or pets.

TO KILL CRAWLING INSECTS

INDOORS: Acts on flies, cockroaches, and other crawling insects. Spray on hiding places such as cracks and crevices, under floorboards, in closets, and in other areas where insects hide. Repeat if necessary.

FLEAS: Spray on sleeping quarters of pet. Repeat if necessary.

BEDBUGS: Spray on beds, mattresses, and other areas where bedbugs hide. Repeat if necessary.
