A-CON

Item # 6905-000

LIQUID FOGGING INSECTICIDE

Institutional d-CON Liquid Fogging Insecticide is a powerful concentration of insecticidal elements powered by dual synergists dispersed in a deodorized base. Formulated primarily for hard-to-kill flying and crawling insects, particularly roaches, which require four times the concentration to kill as flying insects. Made especially for use in fog generators or diffusers that will produce aerosol mists.

Areas of Use:

Supermarkets, hospitals, theaters, restaurants, food transports, warehouses, farms, and all other buildings with large areas requiring insect control.

Precautions for Food Areas:

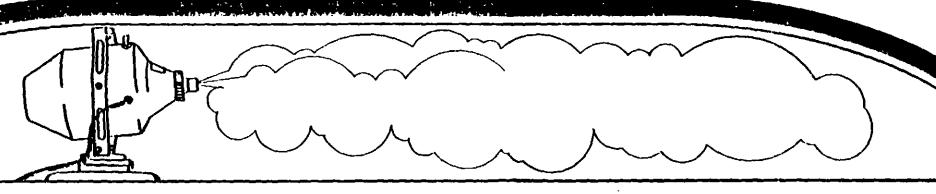

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation.

Sweep up and dispose of dead insects. Repeat treatment as required.
