

Premeasured QUATSYL* 256 in 1/2 oz. water soluble film packets provides a controlled, convenient and economical method for effective **CLEANING, DISINFECTION AND DEODORIZATION**

Formulated for use in Hospitals (including Housekeeping Services, Nursing Services, Operating Rooms, Physical Therapy Departments, Autopsy Facilities, Dietary), Nursing Homes and all other institutions requiring environmental surface disinfection.

Precautionary Statements - Hazards to Humans and Domestic Animals

DANGER

Powder causes eye damage and severe skin irritation. Do not get powder in eyes, on skin or in clothing. Do not open pouches directly. Harmful if swallowed. Avoid contamination of food. Do not remove pouches from package except for immediate use. Wash hands thoroughly after using.

STATEMENT OF PRACTICAL TREATMENT

In case of powder contact with eyes or skin, immediately flush with plenty of water for at least 15 minutes. Call physician immediately. Remove and wash contaminated clothing.

If swallowed, drink promptly a large quantity of milk, egg whites or gelatin solution. If these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE & DISPOSAL

Do not remove packets from container except for immediate use. Do not reuse container. When empty, place in a plastic bag and discard in trash. **STORE IN A COOL DRY PLACE**

**PREMEASURED
QUATSYL 256
Detergent-Disinfectant-Deodorizer**

EPA Reg. No. 675-47 EPA Est. No. 1043-IL-1

**FOR USE BY PROFESSIONAL MAINTENANCE PERSONNEL ONLY
IN INSTITUTIONAL AND INDUSTRIAL FACILITIES**

Water soluble packets provide germicidal activity in the presence of organic soil.*

BACTERICIDAL* *Salmonella*, *Chromobacterium*, *Staphylococcus aureus*, *Pseudomonas aeruginosa*

FUNGICIDAL* Against pathogenic fungi

VIRUCIDAL* Against viruses such as Herpes simplex, Type 1, Influenza A, (H1N1), Adenovirus, and Adenovirus Type 2

PREVENTS MOLD & MILDEW*

SANITIZING* (In food contact surfaces with potable water rinse)

*Activity is enhanced in the presence of blood serum.

ACTIVE INGREDIENTS	Active ingredient	Weight (g)
	Quaternary Ammonium Chloride	7.45
	Active ingredient	7.45
	Active ingredient	3.76
	Active ingredient	0.47
INERT INGREDIENTS	Inert ingredients and detergent builders	85.44

DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive.
Do not handle pouches with wet hands. See additional precautionary statements on side panel.

FOR USE BY PROFESSIONAL MAINTENANCE PERSONNEL ONLY IN INSTITUTIONAL AND INDUSTRIAL FACILITIES 1 OZ WATER SOLUBLE PACKET

DIRECTIONS FOR USE

Always use according to directions. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Prepare a fresh solution daily. Use warm water. Change solution frequently if grossly soiled or diluted. Always remove filth and heavy soil prior to use.

FOR ONE STEP CLEANING & DISINFECTION ONE PACKET PER 1 GALLON WATER

Apply to environmental surfaces, such as floors, walls, furniture and fixtures, and similar hard surfaces with a mop, cloth, sponge or mechanical sprayer. Maintain thoroughly wet surface for 10 minutes.

FOR CLEANING AND SANITIZING ONE PACKET PER 3 GALLONS WATER

Provides 194 ppm Quaternary Active Ingredients when used as directed.

Use on non-porous food contact surfaces such as eating utensils, glassware, dishes, counter tops, splash backs, walls, etc. in water up to 500 ppm hardness (as Ca Co.)

1. First clean surfaces or objects thoroughly and rinse with potable water prior to application of the sanitizing solution.
2. Then apply fresh solution to surfaces with cloth mop or spray equipment. Allow solution to remain on surface 1 minute.
3. All treated food contact surfaces must be rinsed with potable water prior to reuse. For additional information on sanitizing consult your local Health Department.

FOR MOLD AND MILDEW CONTROL ONE PACKET PER 1 GALLON WATER

Clean surface first, then apply via mop or sprayer until surface is moistened thoroughly. Let air dry. Repeat procedure and reapply to surface on a weekly basis or as necessary.
