NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

National Laboratories
1-801 Fink Industrial Products
Division of Sterling Iron Works
225 Summit Drive
Montvale, NJ 07645

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you

1. Submit and provide all data required for the registration or reregistration of your product under FIFRA sec. 3(c)(7)(A) when the Agency requires all constituents of similar products to complete the data.

2. Make the following changes to the label when you receive the label for shipment:

- Add the phrase "EPA Registration No. 675-49."
- On the front panel of your label delete the term "100 days to work."
- In your Hazards to Humans paragraph, change the sentence "Avoid inhalation and skin contact" to read "Avoid contact with skin, eyes or clothing. Avoid breathing spray mist."
- In the "Environmental Hazards" paragraph to read: "This product is toxic to fish, birds and other wildlife. Do not spray directly on water. Do not contaminate water by cleaning of equipment or disposal of wastes."

e. Add to your directions for control of fleas indoors the statement:
To control the source of your flea infestation treat your pets
with a product registered for application to animals.

3. Submit five (5) copies of your final printed labeling before you
release the product for shipment. Refer to the A-79 Enclosure for a further
description of final printed labeling.

If these conditions are not complied with, the registration will be
subject to cancellation in accordance with FIFRA sec. 6(e). Your release for
shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

TITANTM

ANT & ROACH II
SPRAY

TitanTM Ant & Roach II Spray kills insects on contact and keeps on working with residual action even after it dries. Titan is a multi-purpose insecticide that kills a variety of crawling insects. Titan is well suited for use in institutions, motels, hotels, restaurants, industrial plants, warehouses, commercial buildings, and in non-food areas of food processing plants.

DIRECTIONS FOR USE.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT - HOLD CONTAINER IN UPRIGHT POSITION TO SPRAY. SHAKE WELL. Direct spray away from face. Hold container 6 to 12 inches from surface and spray at a rate of 1 foot per second or until surfaces are wet. If reinfestations occur, repeat applications as necessary.

General: Use TitanTM Ant & Roach II Spray to control the pests indicated in the areas listed below. Repeat the treatment as needed. Do not apply in conduits, motor housing, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not allow spray to contact food, feed-stuffs and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fishbowls (tanks) before spraying.

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

APPLICATION WITHIN FOOD HANDLING ESTABLISHMENTS

(OTHER THAN PRIVATE RESIDENCES IN WHICH FOOD IS HELD, PROCESSED, PREPARED OR SERVED) INCLUDING BUT NOT LIMITED TO RESTAURANTS, GROCERY STORES, BAKERIES, BOTTLING PLANTS, CANNERIES, AND GRAIN MILLS: Use as a crack and crevice spot treatment in and around both food and nonfood areas to control COCKROACHES, ANTS, CRICKETS, FIRE-BRATS, SILVERFISH, SPIDERS, and stored products such as CONFUSED FLOUR BEETLES, SAW-TOOTHED GRAIN BEETLES, INDIAN MEAL MOTHS, RICE WEEVILS, AND MEDITERRANEAN FLOUR MOTHS.

Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces. Areas treated may include dark corners of rooms or closets; along and behind baseboards; outside of refrigeration units; floor drains and around plumbing

and other utility installations. For ANTS, apply to ant trails and wherever these pests may find entrance. Spot treatment may encompass crack and crevice treatment by applying small amounts of spray directly into openings leading to voids and hollow spaces in walls, equipment legs and bases. Repeat treatment as needed, but not more often than once every 7 days in restaurants and similar food handling establishments.

(See Bottom)

AB6581

APPLICATION WITHIN NONFOOD AREAS

Industrial, institutional and commercial buildings including hospitals, stores, manu. cturing plants and warehouses:

For Control of COCKROACHES, ANTS, CRICKETS, FIREBRATS, SILVERFISH AND SPIDERS:

Spray localized areas where normally found, including dark corners or rooms and closets; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks; around plumbing and other utility installations. For ANTS, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Note: A period of 4 to 7 days is normally required for maximum effect on cockroaches.

FOR CONTROL OF CARPET BEETLES:

Thoroughly spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving and wherever else these insects are seen or suspected.

FOR CONTROL OF FLEAS AND BROWN DOG TICKS:

Thoroughly spray for spot treatment to infested areas such as cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. DO NOT TREAT PETS WITH THIS PRODUCT.

FOR CONTROL OF FLIES AND MOSQUITOES:

For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of doors, window frames or wherever these insects may enter.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid inhalation and spraying into eyes or on skin. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. DO NOT use in edible products areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in food serving areas while food is exposed. Keep children and pets out of treatment area and cover fish bowls and aquariums during treatment. Do not allow children or pets on treated areas until spray has dried. Do not use as a space spray - FOR SURFACE APPLICATION ONLY.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, birds, and other wildlife. Keep out of lakes, streams, and ponds.

PHYSICAL HAZARDS: Contents under pressure. Do not use near fire, heated surfaces, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Do not induce vomiting. May present aspiration hazard. Call a Physician or Poison Control Center immediately.
If inhaled: Remove victim to fresh air. If on skin: Wash contaminated skin with soap and plenty of water. Get medical attention if irritation persists. If in eyes: Flush eyes with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is antidotal.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal of this product. Storage: Store in a cool dry area away from heat or open flame.
Disposal: Do not reuse empty container. Wrap container and put in trash collection. Exposure to temperatures above 130°F may cause bursting.
