DEC 24 2003

Mr. Bob MacDonald
Agent for Reckitt Benckiser, Inc.
Scientific & Regulatory Consultants, Inc.
P.O. Box 1014
Columbia City, IN 46725

Subject: Formula GP
EPA Registration No. 675-57
Amendment Date:9/29/03
EPA Receipt Date:9/30/03

Dear Mr. MacDonald,

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable with the conditions listed below:

- Upgrade First Aid Statements according to PR Notice 2001-1

Conditions

Revise the label as follows:

1. Page 3 and 4: Qualify ceramic tile as a hard nonporous surface by stating "glazed" ceramic tile.
2. Page 3: The Agency has determined residential products that list microwave ovens and refrigerators as surfaces for disinfection must either delete the surface(s) or specify "*exterior surfaces of microwave ovens and/or refrigerators.*"
3. Page 4: Since this product kills Trichophyton mentagrophytes, either add the following claim or specific fungicidal directions to the label as follows:

Formula GP is effective against Trichophyton mentagrophytes, agent that causes Athletes Foot Fungus, on hard nonporous surfaces in shower and bath areas. Follow Disinfection Directions.

{Labels with multiple uses must include the appropriate headings directly preceding the respective use directions. These headings are optional for labels with only one use pattern.}

A cleaning solution for every room in your home:

For the entire house

With this hardworking Formula GP product, your home not only looks clean, it's antimicrobial disinfectants help kill common household germs. Unlike ordinary glass and surface cleaners, this scientifically advanced formula leaves a brilliant, streak-free shine, plus kills common household germs † Salmonella choleraesuis (Salmonella), Streptococcus pyogenes (Strep), Staphylococcus aureus (Staph), Tricophyton mentagrophytes (the agent that causes Athlete's Foot Fungus), Pseudomonas aeruginosa (Pseudomonas), Escherichia coli (E. coli), Campylobacter jejuni, Shigella dysenteriae and viruses *: Herpes simplex virus type 1 (causes cold sores), Herpes simplex type2 (causes genital herpes), Influenza A₂ (Hong Kong), Respiratory syncytial virus (RSV), and Rhino virus type 37 on hard inanimate environmental surfaces.

The Formula GP science has combined the best glass and surface cleaning technology with antibacterial disinfectants so you can get a clean, shiny surface, while killing household germs†. Perfect for high-touch hard non-porous surfaces like doors, windows, tabletops, appliances, and countertops♦, where food germs, hand prints, or pet smudges appear.

Use throughout your home to clean, shine, and disinfect on shiny surfaces like glass, windows, mirrors, countertops♦, appliances, chrome, stainless steel, aluminum, glazed ceramic tile, glazed porcelain surfaces (including exterior toilet bowls), fiberglass, and patio doors. For all other hard, non-porous surfaces, spot test in an inconspicuous area. Not recommended for wood or varnished surfaces.

- Maximum cleaning power
- Cuts tough kitchen grease
- Maximum streak-free shine
- Kills household germs†
- Fresh clean [citrus] [lemon] scent

Big Jobs: ● Floors ● Walls ● Large Appliances

Effective on: Countertops♦, Sinks, Appliances, Large Appliances, Cabinets, Microwave Ovens, Floors, Walls, Ceramic tile, Stainless Steel, Chrome, Fiberglass, Glazed Porcelain Surfaces and More – Tubs, Showers, Exterior Toilet Bowl, Basins, and Chrome Fixtures. For all other hard, non-porous surfaces, spot test in an inconspicuous area.

[Directions For Use for trigger foamer]

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Use, lift flap and lock into arrow on top of trigger foamer. Do not operate when flap is closed.

To Clean, hold 6-8 inches from surface. Spray with quick, full strokes. Allow foam to penetrate dirt and soap scum. Wipe with wet cloth or sponge, rinse with water.

For Floors and Big Jobs: Mix 1 cup of Formula GP with 1 gallon of water. Apply with mop or sponge. Cleans all washable floors including no-wax, linoleum, vinyl, and ceramic tile. Use full strength for tough greasy stains. For spot cleaning floors, apply straight from bottle and wipe clean with damp sponge or mop.

To Disinfect, Allow surface to remain wet for 10 minutes. Thoroughly rinse all wetted and cleaned surfaces with potable (tap) water. Then wipe.

To Prevent Mold and Mildew Growth on hard, nonporous surfaces, spray thoroughly. Reapply as new growth appears.

To Refill: Remove trigger sprayer from empty bottle. Unscrew cap on refill and pour contents directly into empty bottle. Replace trigger sprayer and use as you normally would.

[Directions For Use for non-foamer trigger]

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Use, lift flap and lock into arrow on top of trigger. Do not operate when flap is closed.

For General Household Cleaning, hold 6-8 inches from surface, spray surface then wipe with a dry towel or lint-free cloth. No rinsing necessary.

For Floors and Big Jobs: Mix 1 cup of Formula GP with 1 gallon of water. Apply with mop or sponge. Cleans all washable floors including no-wax, linoleum, vinyl, and ceramic tile. Use full strength for tough greasy stains. For spot cleaning floors, apply straight from bottle and wipe clean with damp sponge or mop.

To Disinfect/Deodorize, Allow surface to remain wet for 10 minutes. Thoroughly rinse all wetted and cleaned surfaces with potable (tap) water. Then wipe.

To Prevent Mold and Mildew Growth on hard, nonporous surfaces, spray thoroughly. Reapply as new growth appears.

To Refill: Remove trigger sprayer from empty bottle. Unscrew cap on refill and pour contents directly into empty bottle. Replace trigger sprayer and use as you normally would.

Precautionary Statements

Hazards to humans and domestic animals.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

FIRST AID	
If in eyes	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Question? Comments or In case of an emergency call toll free (1-800-677-9218). Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	

STORAGE / DISPOSAL {For sizes 1 gallon or less.}

Store in an area inaccessible to small children. Rinse empty container thoroughly and discard.

STORAGE AND DISPOSAL {For sizes over 1 gallon.}

Do not contaminate water, food, or feed by storage or disposal.

STORAGE

Store in original container in areas inaccessible to small children. Keep securely closed.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Note: Bracketed[] information is optional text. Text separated by a comma(,)denotes-and/or-options. {Bracketed Text} is for administrative purposes only and will not appear on the printed label.

ENVIRONMENTAL HAZARDS {For sizes 5 gallons or more}

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Please encourage your state and local authorities to establish a recycling program so that this container can be recycled.
