GENERAL INFORMATION

CROP RIDER 6D-OS WEED KILLER is an oil-soluble formulation which will mix readily with diesel oil, fuel oil or kerosene for use in weed and woody plant control. This product is NOT designed for use in water.

DIRECTIONS FOR USE

PREPARATION OF THE SPRAY: Fill the spray tank with half the required amount of diesel oil, fuel oil or kerosene; then add the recommended amount of CROP RIDER 6D-OS with agitation and continue filling the spray tank with oil or kerosene.

TIME OF APPLICATION: Best results are obtained when CROP RIDER 6D-OS is used on weeds that are young and in a rapidly-growing condition. Applications of lower rates to susceptible annual weeds usually will be satisfactory, but for perennial weeds and other conditions where kill is difficult, use higher rates. When used as a selective spray on crops, the stage of growth of the crop must be considered. Some woody plants and weeds are hard to kill and repeat applications may be necessary.

SMALL GRAIN CROPS (Wheat, Barley, Rye): Apply CROP RIDER 6D-OS at the rate of 1/3 to 2/3 pint per acre in sufficient oil for uniform coverage on small grains when fully tillered or stooled (4 to 8 inches tall), but before head emerges from the "boot." DO NOT use on grains undersown with legumes, such as alfalfa or clovers, except where some legume injury can be tolerated. DO NOT apply when grain is headed. For airplane application, apply 1 to 2 gallons of oil and 2,4-D solution per acre. NOTE: Regulations governing airplane applications of herbicides are in effect in many states. Consult local regulatory agencies concerning requirements. DO NOT forage or graze treated grain fields within 2 weeks after treatment with 2,4-D.

FOR SUMMER FALLOW AND NON-CROP AREAS: Apply CROP RIDER 6D-OS at the rate of 2 to 3 pints per acre in sufficient oil for uniform coverage when weeds are actively growing. DO NOT plant to any crop until 3 months after treatment or until chemical has disappeared from soil.

WOODY PLANT CONTROL: To control 2,4-D susceptible woody plants such as alder, buckbrush, elderberry, sumac and willow in non-crop or other waste areas, use 2 to 4 pints in 100 gallons of oil (2 to 10 gallons for aerial use). Wet thoroughly all parts of the plants, including foliage and stems, to point of run-off.

Diamond Shamrock Chemical Company

Weed Killer CROP RIDER® 6D-OS

(Oil-Soluble Formulation)

Contains 6.0 Pounds 2,4-D Acid Equivalent Per Gallon

ACTIVE INGREDIENT:	
Butyl Ester of 2,4-Dichlorophenoxyacetic Acid*	78%
INERT INGREDIENTS:	22%
TOTAL:	100%

\*Equivalent to 2,4-Dichlorophenoxyacetic Acid 62.2%

CAUTION

Harmful if swallowed. May cause skin irritation. Avoid contact with eyes, skin and clothing. If contact with eyes occurs, flush with plenty of water. DO NOT store near fertilizers, seeds, insecticides or fungicides. DO NOT contaminate irrigation ditches or water used for domestic purposes. Use care to avoid spray drift to 2,4-D susceptible plants such as cotton, tomatoes, flowers, grapes, fruit trees and ornamentals. Trace amounts of spray drift may cause severe injury to both growing and dormant plants. Coarse sprays are less likely to drift. Spray only on calm days using low pressure and lowered boom. VAPORS from this product may injure 2,4-D sensitive plants in the vicinity. Flush sprayer out on suitable non-crop area after use. DO NOT use the same spray equipment for applying other materials to plants as injury will result. DO NOT reuse empty container. Return to drum reconditioner, or destroy by perforating, crushing and burying or discarding in a safe place. This product is toxic to fish. Keep out of lakes, streams or ponds. DO NOT contaminate water by cleaning of equipment or disposal of wastes. Apply only as directed on this label.

WARRANTY AND LIMITATION OF DAMAGES

SELLER warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and BUYER assumes the risk of any use contrary to such directions. SELLER makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of SELLER is authorized to do so except in writing with a specific reference to this warranty. In no event shall SELLER's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

CAUTION: KEEP OUT OF REACH OF CHILDREN. SEE SIDE PANEL FOR ADDITIONAL CAUTIONS. AGRICULTURAL CHEMICALS DIVISION-CLEVELAND, OHIO 44115
