Diamond Shamrock Chemical Company

Brush Killer

AMINE 20/2T

Contains 20 Pounds Each of 2,4-D and 2,4,5-T Acid Equivalent Per Gallon

ACTIVE INGREDIENTS:

- Dimethylamine Salt of 2,4-Dichlorophenoxyacetic Acid* 24.8%
- Triethylamine Salt of 2,4,5-Trichlorophenoxyacetic Acid** 28.8%

INERT INGREDIENTS:

TOTAL

46.4%
100.0%

- *Equivalent to 2,4-Dichlorophenoxyacetic Acid 20.6%
- **Equivalent to 2,4,5-Trichlorophenoxyacetic Acid 20.6%

CAUTION: KEEP OUT OF REACH OF CHILDREN. SEE SIDE PANEL FOR ADDITIONAL CAUTIONS.

AGRICULTURAL CHEMICALS DIVISION-CLEVELAND, OH 44115

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

GENERAL INFORMATION

AMINE 20/2T is a non-flammable liquid... It is not intended for use on food crops. DO NOT use around the home recreation areas or similar sites.

AMINE 20/2T is an amine formulation of 2,4-D and 2,4,5-T which forms a salt in water. It will not mix with diesel oil, kerosene or benzene.

It is used as a part of a list of some weedy plants controlled by AMINE 20/2T:

- | | | |
|-----------|-----------|--------------|
| Alfalfa | Chenopium | Scarletberry |
| Aspen | Corn | Polkagorss |
| Away | Cotton | Partheno |
| Barnyard | Flax | Smartweed |
| Buckwheat | Goosefoot | Wildberry |
| Burdock | Guava | Wild grape |
| Elm | Orange | Wild radish |

When stored at temperatures below freezing, it may be necessary to warm contents to 40° F. and stir thoroughly before using.

DIRECTIONS FOR USE

PREPARATION OF THE SPRAY: Fill a spray tank with half the amount of water. Add the recommended amount of AMINE 20/2T with agitation and continue filling the spray tank with balance of water.

EQUIVE TREATMENT: Apply AMINE 20/2T to sprays and brush treatments. Coverage should be complete, wetting all parts of the plant, including stems and roots to the point of runoff. Application is more effective when applied to actively growing plants. DO NOT treat during periods of severe drought or in early fall when leaves have lost their healthy green color. AMINE 20/2T acts more slowly than ester sprays. Therefore, a retreatment may be necessary should be delayed until the following season. Certain weedy plants are resistant to residue treatment with this product and can be controlled by using LO-OX 4T or LO-VOL 20/2T as a basal or stump spray.

Aerial application may be of use for control of brush and weeds, parts where there would be no danger of drift to susceptible crops. Applications should only be made by experienced operators in the use of 2,4-D and 2,4,5-T formulations. Regulations governing aerial application of herbicides are in effect in many States and local regulatory agencies concerning requirements before making applications.

CAUTION

- Harmful if swallowed or absorbed through the skin.
- Causes irritation of eyes and skin.
- DO NOT get in or on. In case of contact, flush eyes with plenty of water for at least 15 minutes and get medical attention.
- DO NOT allow contact with skin or clothing. Wash exposed skin gently with plenty of soap and water.
- DO NOT store near fertilizers, seeds, insecticides or fungicides.
- DO NOT contaminate irrigation ditches or water used for domestic purposes.
- Use care to avoid spray drift to 2,4-D and 2,4,5-T susceptible plants such as cotton, tomatoes, flowers, grapes, fruit trees and ornamentals. Trace amounts of spray drift may cause severe injury to both growing and dormant plants. Coarse sprays are less likely to drift. Spray only on calm days using low pressure and lowered booms.
- Flush sprayer out on suitable non-crop area after use. DO NOT use the same spray equipment for applying other materials to plants as injury will result.
- DO NOT reuse empty container. Return to drum recycler, burner or destroy by perforating, crushing and burying or discarding in a safe place.
- DO NOT graze dairy animals on treated areas within 6 weeks after application. DO NOT graze meat animals on treated areas within 2 weeks of application.

WARRANTY AND LIMITATION OF DAMAGES

SELLER warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions on the normal conditions of use and BUYER assumes the risk of any use contrary to such directions. SELLER makes no express or implied warranty, including any other express or implied warranty of FITNESS or MERCHANTABILITY, and no agent of SELLER is authorized to do so except in writing with a specific reference to this warranty. In no event shall SELLER's liability for any breach of warranty exceed the purchase price of the material on to which a claim is made.
