

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Ornamental, Lawns and Turf (Other than bentgrass): Apply **Triban-D** at the rate of 3 1/2 to 4 pints per acre in sufficient water for adequate coverage. Maximum control of weeds will be obtained from spring or early fall application when weeds are actively growing. Avoid applying during long excessively dry or hot periods unless adequate irrigation is available. Do not irrigate within 24 hours of application. Do not apply to newly seeded turf until after the second or third mowing. Grass seed can be safely sown 3 to 4 weeks after application at recommended rate. Do not use on dichondra, carpetgrass and St. Augustinegrass.

Bentgrass Turf: In closely mowed bentgrass (putting and bowling greens) apply **Triban-D** at a maximum rate of 1 fluid ounce per 1,500 square feet preferably in May or mid-August through September. Slight turf yellowing will disappear after about one week.

Note: Care should be taken to avoid overdosing bentgrasses or injury may result. Large volumes of spray water (i.e., 1 fl. oz. in 5 gallons of water per 1,500 sq. ft.) will aid in obtaining uniform coverage. If hand-type sprayers are used it is preferable to use a single nozzle sprayer rather than a multiple nozzle boom as sideways application with a boom where the spray from more than one nozzle is allowed to fall on the same area will result in heavy local over-application and subsequent turf discoloration or injury.

Roadside and General Weed Control: For control of broadleaf weeds along roads, right-of-ways, drainage ditchbanks and other similar non-crop areas, mix 2 to 3 gallons of **Triban-D** in water to make 100 gallons of spray, and apply 30 to 35 gallons per acre. Use higher rate for larger or more dense weed stands. Best results are obtained when weeds are young and actively growing.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

Pesticide Disposal: Pesticide, spray mixture or residue that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Container Disposal: **Do not** reuse empty container. Triple rinse (or equivalent) and offer for recycling or reconditioning or dispose of in a sanitary landfill, or by other approved State and local procedures.

Warranty and Limitation of Damages

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. **Seller makes no other express or implied warranty, including any other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty.** In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
