

CAUTION: Chlordane is toxic and can be absorbed through the skin. Harmful if swallowed. Avoid breathing spray mist. In case of spillage on skin, wash with soap and water. For eyes, flush with water for 15 minutes, get medical attention. Wash hands after use. Do not use on household pets or humans. Do not apply to plants or lawns that are not well irrigated or when air temperature exceeds 90° F. Do not contaminate drinking water. When container is empty, immediately wash thoroughly and destroy. Never reuse. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of waste. Apply this product only as specified on this label.

CAUTION: This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed.

CAUTION: This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

ANTS, SPIDERS, BOX ELDER BUGS, ROACHES (OUTSIDE BUILDING): Mix 2 Tablespoons (1 oz.) in 1 gallon of water. Apply with sprayer or sprinkling can. Form a chemical barrier which helps to prevent these insects from entering the house by treating thoroughly around outside house foundations, and under porches, around garbage containers, along runways, and other areas where insects congregate. Spot treat lawns and around trees or other infested areas.

LAWN AND GOLF GREEN INSECTS: Place ½ pint (8 ozs.) of chlordane in sprayer and fill the remainder of the sprayer with water, apply contents to 1,000 sq. ft. of lawn. When treating for lawn leaf feeders and surface pests, Armyworms, Fiery Skipper larvae, Chiggers, Mole, Crickets, soak lawn with water thoroughly before treatment and do not water again for 2 to 4 days after treatment. When treating for lawn root feeders and soil pests, Cutworms, Japanese Beetle Grubs, White Grubs, Wireworms, Night Crawlers, water thoroughly after treatment to wash spray down into soil. Do not wash spray away by flooding.

Note: Birds feeding in treated areas may be killed. See caution statement.

GARDEN INSECTS: GRASSHOPPERS, JAPANESE BEETLE GRUBS, EARWIGS, CUTWORMS, STRAWBERRY ROOT WEEVIL, CRICKETS: Mix 2 Tablespoons (1 oz.) in 1 gallon of water. Spray plants and ground around plants. Work into top 4 inches of soil. For Earwigs, apply in damp, shady areas, around and under boards and similar places. Repeat as necessary. Do not apply to edible food crops after edible parts start to form. Use Perkerson's Chlordane EC-4 for Lawns, Nursery Stocks and Ornamental Plants.

DIRECTIONS: Do not store diluted spray. Make new dilution for each use.

Note: Read the entire label, use in accordance with label cautions, Warnings and Directions.

Warning: Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
