**CONTENTS: 1 U.S. GALLON**

Manufactured By

**ALFORD KEBY CO., INC.**  
Moriatta, Ohio 45750

Made In U.S.A.

Printed In U.S.A.

## CAUTION

This solution, if brought into contact with skin, can cause toxic symptoms. In case of spillage on skin, wash immediately with soap and water. Avoid breathing spray mist and skin contact. Harmful if swallowed. If taken internally, give emetic of baking soda or mustard in water. Call a physician. Avoid contamination of food-stuffs. Do not use on household pets or humans. Do not apply on food crops after edible parts begin to form.

This product is toxic to fish and wildlife. Keep out of lakes, ponds or streams. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Do not apply where runoff is likely to occur.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.

Keep children and pets off treated areas until insecticide has been washed into the soil and grass is thoroughly dry.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

## WARNING:

Do not use this product on dairy animals, in dairy barns or on feed or forage to be fed to dairy animals or other animals being finished for slaughter.

## DIRECTIONS

For Mole Crickets, Ants, Earthworms and Japanese Beetle Grubs on golf courses and lawns: Spray or sprinkle with a solution of one pint to 100 gals. of water. One gal. of dilute solution should be applied to 50 sq. ft. (5x10) area. Water in thoroughly for individual ant nests, etc.

For Sod Webworms and Armyworms on golf courses and lawns: Use 2½ qt. or 5 lbs. actual Chlordane per acre in 100 gals. water, 2 oz. per 1,000 sq. ft. in 5 gals. water.

For Climbing Cutworms use 1½ qts. or 2.5 lbs. actual Chlordane per acre in 100 gals. water. 1 oz. per 100 sq. ft. in 5 gals. water.

For Chiggers: Use 4 oz. in 25 to 50 gals. of water for 5,000 sq. ft.; ½ oz. to 5 gals. of water to 600 sq. ft. of area. Do NOT water in.

For following insects, mix 1 pt. to 5 gals. of water, or 2½ oz. to 1 gal. or ¾ oz. (1½ tablespoonfuls) to one quart—  
For Roaches, Ants, Spiders and Silverfish: Spray infested area thoroughly, working spray into cracks and crevices and around windows, window sills and other hiding places of insects. Repeat as often as necessary.
