

DIRECTIONS

BLITZ 64, a 49.0% 2,4-D formulation is recommended for the control of dandelion, plantain, buckhorn and other similar weeds in lawn areas.

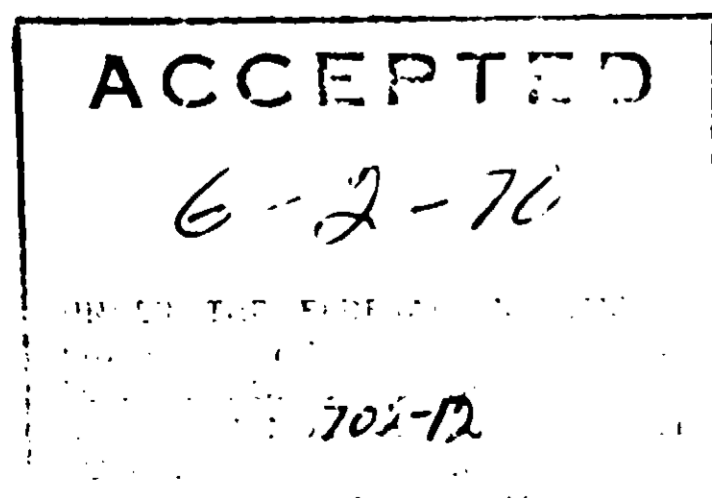

Low temperatures at spraying time may slow down the final result. Weeds are easiest to kill when young and succulent. BLITZ 64 must be applied at the proper time to produce maximum results. Add $\frac{1}{2}$ gallon of BLITZ 64 to 149 gallons of water ($1\frac{1}{4}$ oz. to 3 gallons). One gallon of solution will treat 400 to 500 sq. ft. of lawn area.

WARNING

Hazardous if swallowed, inhaled or absorbed through skin! In case of contact, immediately remove contaminated clothing and flush skin or eyes with plenty of water; for eyes, get medical attention. Wash thoroughly with soap and water after handling and before eating or smoking.

If accidentally taken internally, give emetic of baking soda or mustard in water. Call a physician.

U.S.D.A. Reg. No. 702-12

BLITZ 64

LIQUID

2,4-D WEED KILLER

Kills Most Broad-Leaved Weeds Without Injury to Grasses

ACTIVE INGREDIENT:

*Dimethylamine salts of 2,4-Dichlorophenoxyacetic acid	49.0%
INERT INGREDIENTS	51.0%
Total	100.0%

*Equivalent to 2,4-Dichlorophenoxyacetic acid 41.0%
Contains 4 lbs. 2,4-Dichlorophenoxyacetic acid per gallon.

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for antidote and additional precautionary labeling
