GENUINE BUHACH

BUHACH

EPA Reg. No. 703-1

Keep out of
reach of children

Avoid prolonged inhalation.

DO NOT burn indoors.

ACCEPTED
NOV 16-1971
UNDER THE FEDERAL INSECTICIDE AND FUNGICIDE ACT OF 1947
FOR EQUIPMENT POWDER REGISTERED UNDER NO. 703-1

BUHACH THE CELEBRATED INSECT POWDER

Directions

Sprinkle on door sills and window frames where they enter premises and across trails.
Follow to burrows if possible.

Sprinkle in and around garbage cans and other breeding places and where the flies alight.

Sprinkle in cracks and crevices, around sinks and radiators.

Sprinkle on body of animals and dust lightly through fur by hand.

Dust the chickens and sprinkle about the henneries. For cage birds, dust lightly into feathers.

On ornamental flowers and shrubs (Roses, Zinnia, Aster, Spirea etc.) Sprinkle Buhach on plants while wet with dew or after sprinkling with water.

put Buhach in a heap on a tin plate — set fire and allow to burn

In still air a sufficient amount of this powder burned as above directed has been found effective in repelling mosquitoes in the area enveloped in the smoke.

Always keep cans closed when not in use to conserve strength. Repeat applications when necessary.

Net Contents 8 ozs.
