

706-17

ACCEPTED  
DEC 30 1971

**DIRECTIONS**—Held dispenser upright. Point valve away from face. Push arrow on blue tip sideways until catch clamps (hooks) under round metal circle releasing spray. To stop spray, unhook catch from metal circle.

**FLIES, MOSQUITOES**—Spray high toward ceiling, directing the spray in all parts of the room—From 2 to 4 seconds is sufficient for 1,000 cubic feet (10' x 10' x 10'). For best results close doors and windows for 15 minutes. Do not remain in treated areas and ventilate the area after treatment is completed. Repeat treatment when necessary.

**FRUIT FLIES**—Treat local infestations by attempting to contact the fruit flies with the dry mist particles. Spray balance of area by spraying high toward ceiling in all parts of area. 2 to 4 seconds is sufficient per 1,000 cubic feet. For best results close doors and windows for 15 minutes. Do not remain in treated area and ventilate the area after treatment is completed.

**ROACHES, SILVERFISH**—Spray into cracks and crevices to drive them out. Spray directly on insects. Repeat spraying often. Do not remain in treated areas and ventilate the area after treatment is completed.

**CEREAL MOTHS** (Angoumois Grain Moths, Mediterrean Flour Moth, Indian Meal Moth) Close doors and windows and confine the mist to control the accessible stages. Thoroughly treat areas. Direct the spray into all corners; behind and between all stored products; into cracks and crevices. Repeat weekly or oftener. Destroy infested food stuffs. Do not remain in treated area and ventilate the area after treatment.

<b>ACTIVE INGREDIENTS:</b>	Pyrethrins	0.5%
	Technical Piperonyl Butoxide**	4.0%
	Petroleum Hydrocarbons	5.5%
<b>INERT INGREDIENTS:</b>		90.0%

\*\*Equivalent to 3.2% (butylcarbityl) (6-propylpiperonyl) ether and 0.8% related compounds

**CAUTION**—When used in food processing plants foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.
