Subject: Notification per PRN 98-10 – Add marketing claims
Product Name: Claire Disinfectant Bathroom Cleaner
EPA Registration Number: 706-65
Application Date: September 15, 2020
Action Case Number: 00217725

Dear Maureen Purcell:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Assurance.

Disinfects: [Will clean and disinfect] [Acts as a disinfectant on] [washable] hard, non-porous surfaces such as [plastics], [vinyl], [metal], [painted surfaces], [mats] [and] [door handles], [plastic mats], [Door knobs], [Steering Wheel], [Gear Shift], [Upholstery Plastic or vinyl], [Arm Rest], [Car Console], [center console], [Car Seats] [Dashboard], [Interior dashboard], [seat belt buckle], [stick shift], [turn signal], [toilet seats], [fixtures], [glazed tile], [wash bowls], [shower stalls], [walls], [finished woodwork], [counter tops], [kitchen counter tops], [tables] and [outside surfaces of appliances].

[This product] kills [the following bacteria and viruses* in 10 minutes:] {see list of bacteria and viruses* on page 1}

~~**Disinfects:** Acts as a disinfectant on hard, non-porous environmental surfaces such as toilet seats, fixtures, glazed tile, wash bowls, shower stalls, walls, finished woodwork, counter tops, kitchen counter tops, tables and outside surfaces of appliances.~~

The easy way to clean, disinfect and deodorize. Cleans and disinfects without scouring or scratching. Use in nursery and sickroom, for garbage and diaper pails, for any washable hard, non-porous environmental surface that needs disinfecting as you clean.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Clean and Deodorize: Pre-clean surface prior to use. **Shake Well Before Each Use.** Point valve opening toward area to be cleaned, press down firmly and spray evenly. Wipe clean with a dry cloth, turning frequently.

For Control of Mold and Mildew: Apply by {*Must choose one* –[holding can upright] [inverting can]} 6" to 8" from surface to be treated. Spray until surface is completely wet. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

To Disinfect: After surface is cleaned of visible soil. {*Must choose one* –[hold can upright] [invert can]} 6" to 8" from surface to be treated. Spray until surface is thoroughly wet. Allow treated surface to remain wet for a minimum of ten minutes prior to wiping. When used as a disinfectant on food contact surfaces such as counter tops, tables and appliances, thoroughly rinse surfaces with potable water. Do not use on utensils, dishes or glasses.

***Kills HIV on Pre-Cleaned Environmental Surfaces Previously Soiled with Blood/Body Fluids** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus* Type 1 (HIV) (associated with AIDS): **Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids: Personal Protection:** When handling items soiled with blood or body fluids, use barrier protection: disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow treated surface to remain wet for a minimum of ten minutes prior to wiping. **Disposal of Infectious Materials:** Autoclave blood and other body fluids and disposed of according to federal, state and local regulations for infectious waste disposal.

This product is not for use on medical devices or medical equipment surfaces.

 (*) Indicates any *Virucidal claim

<< **EMERGING VIRAL PATHOGENS CLAIMS – Hard, non-porous surface** >>

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

-Enveloped Viruses

For an emerging viral pathogen that is a/an...	...following the directions for use for the following organisms on the label:
Enveloped virus	Adenovirus Type 2

Claire Disinfectant Bathroom Cleaner has demonstrated effectiveness against viruses similar to [name of emerging virus] on **hard, non-porous surfaces**. Therefore, **Claire Disinfectant Bathroom Cleaner** can be used against [name of emerging virus] when used in accordance with the directions for use against **Adenovirus Type 2** on **hard, non-porous surfaces**. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. **Claire Disinfectant Bathroom Cleaner** kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against **Adenovirus Type 2** on **hard, non-porous surfaces**. Refer to the [CDC or OIE] website at [website address] for additional information.

Storage and Disposal

Product Storage: Store in a cool, dry (preferably locked) place inaccessible to children and pets and away from direct sunlight, windows, flames and other sources of heat or ignition. **Product Disposal:** Wastes resulting from the use of this product may be disposed on site or at an approved waste disposal facility. **Container Disposal:** Non-refillable container; do not refill or reuse this container. Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

{Batch Code/Lot Number will appear either on the label or the container per PR Notice 2007-4.}

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if absorbed through the skin. Avoid contact with eyes, skin or clothing. Harmful if inhaled. Avoid breathing vapor or spray mist. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.
