Attention: Ms. Kim Davis

Gentlemen:

Subject: Claire Broadside Flying & Crawling Insect Killer
EPA Registration No. 706-84
Your Letter Dated October 28, 1987

The proposed amendment to the registration of the product cited above, under the Federal Insecticide, Fungicide, and Rodenticide Act, requesting an alternate formulation, is acceptable subject to the comments listed below.

1. Provide the chemical identity and Material Safety Data Sheet for Vandor LJR Lavender Perfume. All chemical components must be identified. Your supplier may contact us directly, referencing your EPA Registration Number in their response.
2. Provide the dielectric breakdown voltage for the product or add the following statement to the label:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

3. PR Notice 87-8 has been withdrawn. You may wish to revert back to the physical caution statements used prior to PR Notice 87-8.

CAUTION

See back panel for additional precautionary statements.

NET WT. 15 OZ.

BACK PANEL - Claire Broadside Flying & Crawling Insect Killer

**For Use in Non-Food Areas of Commercial, Industrial & Institutional Buildings
and In Households**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

To Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Close all doors and windows, and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects.

To Kill Cockroaches, Ants and Crickets: Spray as many insects as possible in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas, and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails, and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture, and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Exposed Forms of Confused Flour Beetles, Saw-toothed Grain Beetles, and Rice Weevils: Find and discard infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.

To Kill Sowbugs, Centipedes, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, and behind stoves and refrigerators.

To Kill Fleas and Brown Dog Ticks: Remove and destroy old pet bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as necessary. Do not spray animals. Put fresh bedding in pet's quarters after spray has dried. Also treat dogs and cats with a flea and tick control product registered for use on pets before allowing them to enter treated area.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from direct sunlight, windows, flames or other sources of heat or ignition. **Disposal:** Replace cap, wrap container in several layers of newspaper and discard in trash collection. Do not incinerate or puncture.
