**Subject:** Label Amendment—Adding Agency-mandated mitigation for total release fogger products

**Product Name:** Multi-Use Insecticide Fogger

**EPA Reg. No.:** 706-105

**Application Dated:** September 16, 2011

**Decision Number:** 457966

Dear Ms. Davis:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy of the label is enclosed for your records

If you have any questions, you may contact Clayton Myers at (703) 347-8874 or [myers.clayton@epa.gov](mailto:myers.clayton@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez".

Mark Suarez, Product Manager  
Insecticide Branch  
Registration Division (7505P)

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans & Domestic Animals

**CAUTION:** Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Do not breathe vapors or spray mist; breathing spray mist may be harmful. Avoid contact with skin, eyes or clothing. Wash with soap and warm water after use. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

### Physical or Chemical Hazards

Highly Flammable Ingredient

Ingrediente Alamente Inflamable

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
Authorized for use in Federally Inspected Meat, Milk and Poultry Plants.

**Shake well before use. Keep Container Upright.**

Do not apply when food-processing facility is in operation or foods are exposed. Thoroughly wash all food processing surfaces before reuse. After spraying in bakeries, meat packing plants, food processing plants, etc., all benches, shelving, equipment, etc. where exposed food will be handled must be washed with an effective cleaning compound followed by a potable water rinse to remove all traces of contamination.

Food areas include areas for receiving, storage, packaging (canning, bottling, wrapping and boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas are places where prepared foods are served, such as dining rooms, but not excluding areas where foods may be prepared or held. Non-food areas include entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Do not treat establishments where livestock feed is present.

This product will kill ants, cockroaches, confused flour beetles, crickets, fleas, houseflies, mosquitoes, rice weevils, saw-toothed grain beetles, small flying moths, sow bugs, spiders and ticks.

### To Use This Product Correctly

**Do Not** use more than one fogger per room. **Do Not** use in small, enclosed spaces such as closets, cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms. **Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.).** Call your gas utility or management company if you need assistance with your pilot lights.

{EPA Pre-Approved Pictogram 1:}

Do Not use Multiple Canisters in a Room.

{EPA Pre-Approved Pictogram 2:}

Do Not Use in Small Confined Spaces.

{EPA Pre-Approved Pictogram 3:}

Unplug and Turn off Ignition Sources.

{EPA Pre-Approved Pictogram 4:}

NO Flames or Pilot Lights.

### How to Use

#### Step 1: Before You Fog

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Remove pets and birds; cover and turn off fish aquariums before activating fogger.

{EPA Pre-Approved Pictogram 5:}

Remove or Cover Exposed Food.

#### Step 2: Preparation:

Cover wood floors and wood furniture in the immediate area around the fogger with newspapers or a drop cloth. Open cabinets, cupboards, drawers, closets and doors in areas to be treated. Close outside doors and windows. Shut off fans, air conditioners and ventilation equipment. Place a chair, small table or stand in the center of the room to be treated and cover with newspaper. One canister of fogger will treat a room 30' x 25' with an 8 foot ceiling (6,000 cubic feet). Use **only 1** unit for each 6,000 cubic feet of space. Fill out and place hang-tag on the door to the treated area to alert family members and others with access to the treated area not to enter for 2 hours after treatment.

#### Step 3: To Start Fogging:

**Shake Well Just Before Using. To Operate Valve:** Point fogger away from face and eyes when releasing (container sprays straight up). To lock valve in open position for automatic discharge, firmly press valve button down, hooking the catch [until it snaps into place]. Then place the fogger on the stand or table in the center of the room.

Do not re-enter for 2 hours.

**Step 4: Airing Out:**

Do not remain in the treated area; **immediately vacate the treated house, individual apartment unit or other structure and remain outside.** Do not allow adults, children or pets to re-enter the treated area/structure for a minimum of 2 hours to ensure the vapors, mists and aerosols have dispersed. Thoroughly ventilate the treated area before reoccupying. If an odor is still detectable after 2 hours, additional ventilation is required.

{EPA Pre-Approved Pictogram 6:}

Air Out the Room Before Entering.

**To Kill Fleas and Ticks:** Destroy pet's old bedding and replace with clean, fresh bedding after treatment is completed. Use product as above. Pets should be treated with a registered flea and tick control product prior to reentering treated premises. Also treat your yard with a product registered for yard application. **This product does not control bed bugs.**

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry place. Keep container closed. **Pesticide/Container Disposal:** Do not puncture or incinerate! Non-refillable container; do not reuse or refill this container. **If empty:** Offer for recycling, if available; otherwise, discard in trash. **If partly filled:** Call your local solid waste agency for disposal instructions.

*{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}*
