c/o Ms. Kim Davis
RegWest Company, LLC
8203 West 20th Street, Suite A
Greeley, CO 80634-4696

Subject: Amended Reregistration Label
Product Name: Claire Lice Killer
EPA Registration Number: 706-106
EPA Decision Number(s): 427166

Dear Ms. Davis:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the reregistration of the referenced product in connection with the MGK-264 and Phenothrin REDs and has concluded that your submission is acceptable.

NOTE: This product is not being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

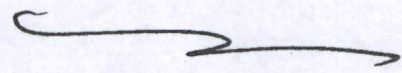

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated 7/22/2011

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

If you have any questions about this letter, please contact Dana Pilitt, Ph.D. at (703) 305-7071 or via e-mail at pilitt.dana@epa.gov.

Sincerely,

Richard J. Gebken
Product Manager (10)
Insecticide Branch
Registration Division (7504P)

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)

Applicators must wear long-sleeved shirt and long pants, shoes and socks, and chemical-resistant gloves made of any waterproof material.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

[Stop! Read Entire Label Before Use]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. In hospitals and nursing homes, remove patients before treatment. Do not enter or allow others to enter the treated area until the sprays have dried. Do not allow people or pets to enter treated areas until vapors, mists and aerosols have dispersed, and the treated area has been thoroughly ventilated. Wait 2 hours after application, then open windows, vents and doors for 2 hours. If an odor is still detected, additional ventilation is required. This product is not for use on humans; if lice infestation should occur on humans, use a product labeled for use on humans. Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where food is served, such as dining rooms, but excluding areas where foods may be prepared or held. Do not apply more than 1 time per day in indoor food handling/processing facilities. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash utensils before use. Cover exposed food and remove utensils in serving area. Before spraying, remove pets/birds, cover fish aquariums and ornamental fish ponds and turn off aquarium systems. Do not use in aircraft cabins.

Shake Well Before Each Use.

[Remove protective cap. Aim spray opening away from person. Push button to spray.]

To Apply: Spray in an inconspicuous area to test for possible staining or discoloration, evaluate test area after drying. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8-10 inches. Spray each square foot for 5 seconds. Do not wet articles to the point of runoff or drip. Most effective results are achieved when used as part of a treatment protocol that includes physical, environmental and other chemical pest control measures. Allow sprayed articles and surfaces to thoroughly dry before using or replacing bedding.

To Kill Lice: Dry clean treated clothes before wearing. Spray only parts of bedding, including mattresses and furniture that cannot be either laundered or dry-cleaned. Washable bedding such as sheets and pillowcases should be washed in hot water and dried in high heat. After mattresses dry, cover with a mattress cover and sheet, do not use mattress without cover.

To Kill Fleas and Ticks: Spray around beds, furniture and pet's habitat. Spray pet's sleeping quarters, bedding, floor and floor covering where pets are kept. Prior to allowing pets into treated areas, treat pets with a flea and tick control product registered for use on pets.

To Kill Dust Mites: Thoroughly vacuum entire room, concentrating on areas where mites congregate such as mattresses, box springs, headboards, walls, floors, carpeting and baseboards; then spray surfaces until damp.

To Kill Bed Bugs and Bed Bug Eggs: Apply as a spot treatment to cracks and crevices around baseboards, floorboards, bedframes, wall hangings, headboards, furniture, door and window frames, millwork and walls. Apply as a surface spray to carpet, mattresses, box springs, walls, furniture, floor and floor coverings, rugs, garments, luggage, closets, drapes and other window treatments. Thoroughly clean and air-out mattresses and box springs; then treat areas that may harbor bed bugs or their eggs, such as tufts, folds and seams. Washable bedding such as sheets and pillowcases should be washed in hot water and dried in high heat. After mattresses dry, cover with a mattress cover and sheet, do not use mattress without cover. When treating for bed bug eggs, spray each square foot for 13 seconds or until damp.

To Kill Carpet Beetles and Clothes Moths: Apply as a spot treatment to cracks and crevices on and around baseboards, floorboards, furniture and around the edges of carpet. Apply as a surface spray to carpet, rugs, closets, baseboards and furniture, on floor and floor coverings. When treating carpets, floor coverings or rugs, spray a sufficient amount to get the spray down into the base where the larval stages are feeding. Spray upper and lower surfaces of rugs or floor covering when possible.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a secure (preferably locked) storage area that is cool and dry away from food and pet food. **Pesticide and Container Disposal:** Do not puncture or incinerate! **If empty:** Offer for recycling, if available; otherwise, discard in trash. **If partly filled:** Call your local solid waste agency for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}

{Enlargement:
No CFCs.

Contains no CFCs which deplete the ozone layer.

Federal regulations prohibit CFC propellants in aerosols.}

{Marketing Claims:}

Kills:

- Dust Mites, Lice, Ticks, Fleas, Bed Bugs [and their eggs], Clothes Moths, Carpet Beetles**
- Bed bugs and dust mites where they hide**
- Bed bugs eggs [before they hatch]**
- Dust Mites on Contact**
- Bedbugs on wood/ceramic surfaces and carpet for up to 2 weeks**
- Adult Lice, and nymphs as they hatch, on Bedding, Garments, Furniture and Other Inanimate Objects**

Effective Control of Listed Pests

Reduces bed bug egg hatch in both susceptible and some resistant strains of bed bug eggs

For Indoor Use in the Home and Non-Food Areas of Restaurants, Schools, Nursing Homes, Warehouses, Offices, Apartments, Hotels, Motels, Kennels and Hospitals

For Use on Mattresses, Wood Furniture and Carpet[s]
Use on Non-Washable Items to Kill Lice and Nymphs

Not for Use on Humans or Animals
Will Not Stain Water-Safe Fabrics and Surfaces
