Maureen Purcell
EPA Registrations Manager
Claire Manufacturing Company
1000 Integram Drive
Pacific, MO 63069

Subject: PRIA Label Amendment – Add SARS-CoV-2 claim
Product Name: Claire Disinfectant Spray Q
EPA Admin Number: 706-111
Application Date: June 21, 2021
Case Number: 00307278

Dear Ms. Purcell:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Kills 99.9% Germs on hard non-porous surfaces
Kills 99.9% viruses* and bacteria
Kills flu viruses
Kills (Tb) Mycobacterium bovis on hard non-porous surfaces
Multisurface Disinfectant
Controls Mold and Mildew
Controls mold and mildew on [mattresses], [shower curtains], [painted or finished walls], [attics and damp, musty areas].
Disinfects on hard, non-porous surfaces
Soft spot surface sanitizer
For non-food application use on hard non-porous surfaces [such as]: High touch surfaces, door knobs, light switches, toilets[^], sinks, bathtubs, showers, kitchen appliance surfaces[‡], garbage cans.
Disinfects hard, non-porous food contact surfaces such as tables, counter tops, appliances[‡] and toys in Kitchens, Restaurants, Commercial Establishments and Homes.
Use in: Healthcare, Schools, Hotels, Restaurants, Commercial Establishments, Homes
Eliminates Odors

Ready-to-use
No mixing

This [product] is effective as a disinfectant on hard, non-porous, non-food contact surfaces in: {Insert use sites from list below.}

Ambulances
Homes
Residential Dwellings
Hospitals
Healthcare
Nursing Homes
Clinics
Medical Facilities
Businesses
Hotels
Motels
Restaurants
Schools
Institutions
Housekeeping [and in-home use]
Kitchens
Bathrooms
Commercial Establishments

This [product] is effective as a sanitizer on hard, non-porous, non-food contact surfaces in: {Insert use sites from list below.}

Homes
Residential Dwellings
Businesses
Hotels
Motels

Streptococcus pyogenes (ATCC 19615)
Staphylococcus aureus –VISA (CDC HIP 5836)
Enterococcus faecalis –VRE (ATCC 51575)
Campylobacter jejuni (ATCC 29428)

Viruses*:

*SARS-CoV-2 virus [that may cause COVID-19]
*Adenovirus Type 2 (VR-846)
*Influenza A virus [2009] (H1N1) (Strain A/Mexico/4108/2009)
*Influenza B virus (VR-823)
*Human Immunodeficiency virus type 1 (HIV-1) (Strain HTLV-III_B)
*Herpes simplex virus type 1 (VR-733)
*Herpes simplex virus type 2 (VR-734)
*Rotavirus (VR-2018)
*Vaccinia virus (VR-119)
*Rhinovirus type 37 (VR-1147)

Fungus:

Candida albicans (ATCC 10231)

[This product] kills (Tb) Mycobacterium bovis (ATCC 35743) in 10 minutes at 22.5°C on pre-cleaned hard, non-porous surfaces.

[This product] kills *Poliovirus type 1 (VR-1562) in 5 minutes on pre-cleaned hard, non-porous surfaces.

[This product] sanitizes and kills 99.9% of *Staphylococcus aureus* (*staph*) and *Enterobacter aerogenes* in 3 minutes on pre-cleaned, hard, non-porous surfaces.

Fungi:

{State fungicidal claims as 10 minute contact time}
Trichophyton interdigitale (Athlete's Foot Fungus) (ATCC 9533)

{Select claims as desired for Mildew-Fungistatic use.}
Aspergillus niger (ATCC 6275)

<< EMERGING VIRAL PATHOGENS CLAIMS – Hard, non-porous surface >>

This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped Viruses
- Large Non-Enveloped Viruses

<i>For an emerging viral pathogen that is a/an...</i>	<i>...following the directions for use for the following organisms on the label:</i>
Enveloped virus	*Poliovirus type 1, ATCC VR-1562, Strain Chat
Large, non-enveloped virus	*Poliovirus type 1, ATCC VR-1562, Strain Chat

[Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [porous and/or non-porous surfaces]. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on hard, porous/non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es)] on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information."

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake Well Before Each Use. Point valve opening toward area to be cleaned, press down firmly and spray evenly.

To Disinfect: Preclean all hard, non-porous surfaces prior to disinfection. After hard, non-porous surface is cleaned, hold can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 3 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved. When used on toys or food contact surfaces such as countertops, tables and appliances, thoroughly rinse surfaces with potable water before use. Do not use on utensils, dishes or glasses.

To Sanitize Non-Food Contact Surfaces: Preclean all hard, non-porous surfaces prior to sanitization. After hard, non-porous surface is cleaned, hold can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 3 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved.

To Kill (Tb) Mycobacterium bovis: Pre-clean surfaces, hold can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 10 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved. When used on toys or food contact surfaces such as countertops, tables and appliances[‡], thoroughly rinse surfaces with potable water before use. Do not use on utensils, dishes or glasses.

To Kill *Poliovirus Type 1: After surface is cleaned, hold can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 5 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved. When used on toys or food contact surfaces such as countertops, tables and appliances[‡], thoroughly rinse surfaces with potable water before use. Do not use on utensils, dishes or glasses.

For use as a fungicide [against Trichophyton interdigitale (Athlete's Foot)]: Preclean all hard, non-porous surfaces prior to disinfection. Apply to clean surface holding can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 10 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved.

For Spot Sanitization of Soft Non-food Contact Surfaces: Preclean all hard, non-porous surfaces prior to sanitization. Hold can upright 6" to 8" from area to be treated. Spray until surface is thoroughly wet. Allow to dry without wiping or allow spray to contact treated surface for a minimum of 3 minutes prior to wiping. Reapplication is necessary if surface is dried before contact time is achieved.

[] Denotes optional language

{ } Denotes language that does not appear on the market label
() Denotes language that is intended to be included on the label with parenthesis
The phrase 'This product' may be replaced with the product name or left off.

For Control of Mold and Mildew: Preclean all hard, non-porous surfaces. Apply by holding can upright 6" to 8" from surface to be treated. Spray until surface is completely wet. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

***Kills HIV on Pre-Cleaned Environmental Surfaces Previously Soiled with Blood/Body Fluids** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of *human immunodeficiency virus Type 1 (HIV) (associated with AIDS): **Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids:**
Personal Protection: When handling items soiled with blood or body fluids, use barrier protection: disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this disinfectant. **Contact Time:** Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a minimum of 3 minutes except for *Poliovirus Type 1 which requires five minutes, prior to wiping. **Disposal of Infectious Materials:** Autoclave blood and other body fluids and dispose of according to federal, state and local regulations for infectious waste disposal.

This product is not for use on medical devices or medical equipment surfaces.

(Note to Reviewer: Below are footnotes that used in the marketing, claims or directions for use. These footnotes will be used on the final label, if referenced.)

† *Staphylococcus aureus* (ATCC 6538), *Salmonella enterica* (ATCC 10708), *Escherichia coli* (ATCC 11229), *Influenza A virus (H1N1), *Influenza B virus (VR-823), *SARS-CoV-2 virus [that may cause COVID-19], *Rotavirus (VR-2018), *Rhinovirus type 37 (VR-1147), *Trichophyton interdigitale* (Athlete's Foot Fungus) (ATCC 9533)

‡ Allow surface to come to room temperature before using this product.

^ For use on exterior surfaces above the water line.

Storage and Disposal

([Product, Pesticide]) Storage: Store in a cool, dry (preferably locked) place inaccessible to children and pets and away from direct sunlight, windows, flames and other sources of heat or ignition. **([Product, Pesticide]) Disposal:** Wastes resulting from the use of this product may be disposed on site or at an approved waste disposal facility. **Container Disposal:** Non-refillable container. Do not refill or reuse this container. Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

{Batch Code/Lot Number will appear either on the label or the container per PR Notice 2007-4.}

PRECAUTIONARY STATEMENTS
Hazards to Humans & Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

First Aid

If in Eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
If on Skin	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
<p>Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-866-836-8855 {or other appropriate number} for emergency medical treatment information.</p>	

{Note: The grid format for the First Aid statements will be used if market label space permits; otherwise a paragraph format will be used.}

Physical or Chemical Hazards

Flammable. Contents under pressure. Do not use or store near fire, sparks or heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion.
