This product is not for consumer use. It is a concentrate sold to manufacturers of insecticides and should be used in accordance with directions supplied by the seller.

This product has a tendency to congeal at temperatures around the freezing point. If the material has been exposed to cold, warm it to room temperature and thoroughly agitate before using. If possible, store Lethane 384 in a heated place (40°F. minimum).

The chemical composition and insecticidal properties of Lethane are not affected in any way by cold. Finished insecticides based on Lethane 384 remain in complete solution and are not affected by low temperatures.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
