[illegible]

Part of the reason for this is that the law is not a neutral, objective tool that can be used to resolve disputes. It is a tool that is shaped by the values and interests of those who create it. In the case of the law of evidence, this means that the law is shaped by the values and interests of those who create it. This is why the law of evidence is not a neutral, objective tool that can be used to resolve disputes. It is a tool that is shaped by the values and interests of those who create it.

KARATHANE® WD
Agricultural Fungicide
and Miticide

NOT FOR SALE, DISTRIBUTION OR USE
IN ARIZONA AND CALIFORNIA
FOR AGRICULTURAL USE ONLY OR
ONLY FOR SALE TO, USE, AND
STORAGE BY SERVICE PERSONS

NOTICE: Before using this product, read the entire Precautionary Statement, Directions for Use and Warranty. Directions for use, use, application and storage and disposal instructions. If the Conditions of Sale and Warranty are not acceptable, return the product to the place of purchase within thirty days of purchase to the place of purchase. THIS PRODUCT MAY BE HAZARDOUS TO YOUR HEALTH. THIS PRODUCT HAS BEEN DETERMINED TO CAUSE BIRTH DEFECTS IN LABORATORY ANIMALS.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Irritant to skin. Will be absorbed through the skin or inhaled. May irritate eye, skin, nose and throat. May be absorbed through the skin or inhaled. Avoid contact with skin, eyes, nose and mouth. Avoid breathing dust or spray. Wash thoroughly with soap and water after handling and before eating or drinking.

When using, wearing and spraying, wear mid-forearm to mid-thigh protective clothing, gloves, boots or overalls, and a respirator with a high efficiency filter and long pants and socks. Do not eat, drink, or smoke. In addition wear a protective suit and hood.

Use of clothing and equipment specified above, the application of this product should be made with filtered air supply, eye protection, and a respirator. See statement for additional precautions.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED - Drink plenty of water. Do not induce vomiting. If vomiting occurs, do not repeat.

NOTE TO PHYSICIAN - Antidotes, if necessary, to be given immediately. Do not induce vomiting. Do not give food or drink. Do not give emetics. Do not give oil. Do not give milk. Do not give alcohol. Do not give any other food or drink.

IF INHALED - Remove person to fresh air. If breathing is difficult, give oxygen. If breathing is not difficult, give nothing by mouth.

IF ON SKIN - Wash thoroughly with plenty of water. If irritation occurs, wash with plenty of water.

IF IN EYES - Flush eyes with plenty of water for at least 15 minutes. If irritation persists, consult a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or water bodies. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

Use in accordance with Federal Law in the product in a manner consistent with the labeling.

RE-ENTRY AND WORKER PROTECTION STATEMENTS

Do not enter treated areas without protective clothing until sprays have dried. For ease of entry, states may require re-entry time recently entered for various crops treated with this product consult state department of Agriculture for other information. Do not apply this product in such a manner as to create a through drift to other workers or other persons. The product, if needed, must be visible to unprotected persons.

Written entry warnings must be given to workers who are expected to enter treated areas. If an area is not to be treated with this product, the warning must be given there is no need to believe that written warnings cannot be understood by workers. Written warnings must be given in a language sufficiently understood by workers. Written warnings must include the following information:

CAUTION

Crop area of this description treated with KARATHANE WD on [] date of application. Do not enter treated areas without protective clothing until sprays have dried. In case of accidental exposure, call doctor or physician, clinic or hospital immediately. Explain that the victim has been exposed to KARATHANE WD and describe his condition. For further information see the Statement of First Aid Treatment.

The warning must include the same information as the entry warning.

PERSONAL PROTECTIVE EQUIPMENT — For Mark and Gordon when used on Apples, Field Cucurbits, Grapes and Pears.

During the mixing and loading of KARATHANE WD, wear a protective suit that covers the body and all parts of the body except the head, hands and feet. Wear chemical resistant gloves, chemical resistant apron and chemical resistant shoes. Do not eat, drink, or smoke. Wear goggles and a face shield. After use, wash thoroughly.

When used on field cucurbits, grapes and pears, application MUST be made from a vehicle with a completely enclosed cab. A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area.

When used on apples, it is recommended that application be made from a vehicle with a completely enclosed cab. A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area. If application is made from a vehicle with a completely enclosed cab, do not wear a protective suit and goggles until A person who is not in the cab must not enter the treated area.

WARNING: Wearing the protective suit for the prolonged periods required for application may produce heat stress at temperatures above 85°F on a cloudy day or 80°F on a sunny day. Application of this product must be conducted from enclosed cabs or in areas where the temperature exceeds 85°F (80°F on sunny days) or delayed until the temperature drops.

IMPORTANT: After application of the pesticide, immediately remove clothing and shoes. Shower using soap and water. Redress only in clean clothes. Do not use contaminated clothing. Wash and decontaminate protective clothing and protective equipment with soap or detergent and water after each use. FRUITS (cont'd):

Crop	Control of:	Rate Of KARATHANE WD Fungicide-Miticide Per Application		Timing and Remarks	Restrictions
		Oz./100 Gal.	Lb./A		
Grapes	Mites Powdery mildew	8	1 to 2 1/2	Begin applications when mildew first appears (usually during early stages of foliage growth) and repeat at 10 to 14 day intervals. From 2 to 6 applications may be required.	Applications MUST be made from an enclosed cab. Refer to Re-entry and Worker Protection Statements. Do not use within 21 days of harvest.
Peaches (orchard)	Refer to Apricots				
Peaches (nursery)	Refer to Apples (nursery)				
Pears	Refer to Apples (orchard)				Applications MUST be made from an enclosed cab. Refer to Re-entry and Worker Protection Statements.

VEGETABLES

Cantaloupes	Powdery mildew	6 to 8	1 1/2 to 3 1/4	Apply when powdery mildew signs are first observed and repeat at 7 to 10 day intervals. From 3 to 10 applications may be required. On cucumbers and summer squash, spray a maximum of 3 to 4 times to an individual set of fruit.	Applications MUST be made from an enclosed cab. Refer to Re-entry and Worker Protection Statements. Do not use within 7 days of harvest.
Cucumbers (field)	Refer to Cantaloupes				
Cucumbers (greenhouse)	Powdery mildew	4 to 8	—	Apply in a light thorough spray. Begin when mildew first appears and repeat at 5 to 7 day intervals or as necessary. Do not apply when temperatures exceed 90°F.	
Melons	Refer to Cantaloupes				
Pumpkins	Refer to Cantaloupes				
Squash	Refer to Cantaloupes				

ORNAMENTALS

Crop

Control of:

Clover mites
Powdery mildew
Red spider mites

Timing and Remarks

GENERAL USE DIRECTIONS:

Greenhouse — Use 4 to 6 ozs./100 gals. water or 2 level tablespoons per 12 1/2 gals. water. Begin applications when first signs of powdery mildew or mites are observed and apply thorough coverage sprays at 7 to 10 day intervals.

Outdoors — Use 6 to 8 ozs./100 gals. water or 2 level teaspoons per 3 gals. water. Begin applications when first signs of mildew or mites are observed and apply thorough coverage sprays at 5 to 7 day intervals or as necessary.

Do not apply when greenhouse or outdoor temperatures are expected to reach or exceed 90°F.

African violets

Asters

Begonias

Calendulas

Chrysanthemums

Cinerarias

Dahlias

Delphiniums

Euonymus

Gardenia

Hydrangeas

Larkspur

Lilacs

Roses

(greenhouse)

Apply in a light misting spray when signs of powdery mildew or mites are first observed and repeat at 5 to 7 day intervals or as long as necessary. The use of TRITON B-1956 will improve uniformity of spray deposits.

Do not apply if temperatures are expected to reach or exceed 90°F.

Roses

(outdoors)

Use includes multiflora roses. Apply 6 to 8 ozs. per 100 gals. when first signs of powdery mildew or mites are observed and repeat at 7 to 10 day intervals. Use thorough full coverage sprays. The addition of TRITON B-1956 will improve uniformity of spray deposits.
