DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the label.

WILD RICE (Zizania aquatica)

HELMINTHOSPORIUM BLIGHT - Use Dithane M-45 at 2 lbs. per acre in sufficient water for adequate coverage. Either ground or aerial application may be used. Start applications when plants are heading, approximately the second week of July, and repeat at 7 to 10 day intervals. Do not make more than four applications during the season. Do not apply within 26 days of harvest. Do not feed plants to livestock within 26 days of final application.

FOR USE ON WILD RICE GROWN IN COMMERCIAL PADDIES ONLY

IMPORTANT:

All applicable directions, restrictions and precautions on the EPA registered labels are to be followed.

This product is toxic to fish. Discharge from treated areas may be hazardous to fish in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes.

This labeling must be in the possession of the user at the time of applications.
