This product is not for consumer use. It is a concentrate sold to manufacturers of Insecticides and should be used in accordance with directions supplied by the seller.

This product has a tendency to congeal at temperatures around the freezing point. If the material has been exposed to cold, warm it to room temperature and thoroughly agitate before using. If possible, store Lethane 384 in a heated place (40°F. minimum).

The chemical composition and insecticidal properties of Lethane are not affected in any way by cold. Finished insecticides based on Lethane 384 remain in complete solution and are not affected by low temperatures.

### NOTICE:

The supplier makes no warranty of any kind, express or implied, concerning the use of this product. The user assumes all risks of use, storage or handling, whether or not in accordance with any directions or suggestions of the supplier.
