

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER

**CAUSES SEVERE EYE DAMAGE AND SKIN BURNS.
MAY CAUSE ALLERGIC SKIN REACTION.
HARMFUL IF INHALED.
HARMFUL IF SWALLOWED.**

Do not get in eyes, on skin, on clothing. Wear goggles and rubber gloves. Avoid breathing vapor or mist. Keep container closed. Use with adequate ventilation. Do not take internally. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water by cleaning of equipment, or disposal of wastes. Keep out of lakes, streams or ponds. Dispose of excess treated seeds or wastes by burial. Apply this product only as specified on the label.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinseate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

GENERAL: Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use treated seed for food, feed or oil purposes.

FOR USE ON COTTON SEED

Kathon 893 SP-45 is a formulation specifically designed to be used without dilution with water. Kathon 893 SP-45 is recommended for use on cotton seed as a fungicide seed treatment for the control of surface borne fungi and seedling diseases and for control of pre-emergence damping-off by the soil borne fungi *Fusarium*, *Rhizoctonia*, and *Pythium*.

Kathon 893 SP-45 should be applied at the rates of 3.0 fluid ounces (3.24 av. ounces) per 100 lbs. of acid delinted cotton seed, and 4.5 fluid ounces (4.86 av. ounces) per 100 lbs of machine delinted (reginned) cotton seed. The product, which must not be mixed with water or other seed-treatment products, should be pumped directly from its container into the metering system of the seed treating machine. Machines may spray the product on to the seeds, and then tumble them to get uniform distribution (Mist-O-Matic® type), or meter it into a container of tumbling seed (Panogen® type). Clean the machine, and spills, with an aqueous solution of any all-purpose household cleaner.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product in a manner other than as directed by label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops and personal injury.
