ROHM AND HAAS CO
PHILADELPHIA, PA. 19105

NET CONTENTS

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

For disinfecting and cleaning surfaces.

FOR CLEANING

Lightly soiled areas — Surfaces to be cleaned or brushed with a solution of Rohm and Haas DC-100B prepared at 2% concentration.

Heavily soiled areas — In open areas, use a solution of Rohm and Haas DC-100B prepared at 4% concentration.

GENERAL PURPOSE DISINFECTANT

1. Dilute with water and apply to surfaces to be disinfected. 2. Allow to remain on surface for 10 minutes. 3. Rinse with water. 4. Surfaces to be disinfected must be free of organic matter. 5. Do not use on surfaces that are highly porous or that are sensitive to alkalis. 6. Do not use on surfaces that are highly reflective. 7. Do not use on surfaces that are highly colored. 8. Do not use on surfaces that are highly textured. 9. Do not use on surfaces that are highly irregular. 10. Do not use on surfaces that are highly uneven.

HOSPITAL DISINFECTION

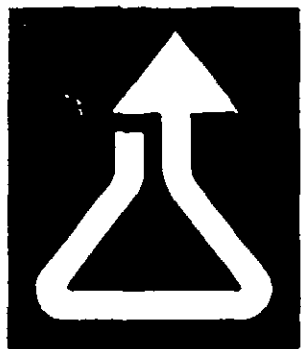

Disinfect all surfaces in hospital rooms, including floors, walls, and furniture. Use a solution of Rohm and Haas DC-100B prepared at 2% concentration. Allow to remain on surface for 10 minutes. Rinse with water. Do not use on surfaces that are highly porous or that are sensitive to alkalis. Do not use on surfaces that are highly reflective. Do not use on surfaces that are highly colored. Do not use on surfaces that are highly textured. Do not use on surfaces that are highly irregular. Do not use on surfaces that are highly uneven.

DEODORIZATION

Prevent odorization of surfaces by using a solution of Rohm and Haas DC-100B prepared at 2% concentration. Apply to surfaces and allow to remain for 10 minutes. Rinse with water. Do not use on surfaces that are highly porous or that are sensitive to alkalis. Do not use on surfaces that are highly reflective. Do not use on surfaces that are highly colored. Do not use on surfaces that are highly textured. Do not use on surfaces that are highly irregular. Do not use on surfaces that are highly uneven.
