DIRECTIONS FOR USE

HYDRAULIC FLUID PRESERVATION

1. Add 1 part of ANTHON to 100 parts of hydraulic fluid.
2. Mix thoroughly.

USE DILUTION FLUID

1. Add 1 part of ANTHON to 100 parts of dilution fluid.
2. Mix thoroughly.

instead of by the addition of 14.58 lbs. (18.75 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of fluid every 1-3 weeks. Alternatively, add 14.58 lbs. (18.75 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of make-up fluid. A change in frequency of treatment may be required depending upon the rate of dilution of the preservative with the make-up fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.

METAL CLEANING FLUID PRESERVATION

Kathon MWC microbicide is recommended as a preservative for use in the manufacture and use of alkaline acid and emulsion based metal cleaning fluid typically used for control of phosphate passivation and general metal cleaning operations.

METHOD OF ADDITION Kathon MWC microbicide should be directly dispensed into the metal cleaning concentrate or use dilution metal cleaning fluid using a metering pump or other point of use device and continuously added throughout the fluid. Cleanly contaminated systems may be cleaned before treatment is begun.

FLUID CONCENTRATE Kathon MWC microbicide should be added to the metal cleaning concentrate at a level to ensure that the final use dilution fluid will contain 141.585 ppm of product (49.205 ppm of active ingredient).

USE-DILUTION FLUID

INITIAL DOSE For a noticeably fouled system, add 5.8 lbs. (7.5 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of fluid. If necessary, continue dosing of 14.58 lbs. (18.75 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of fluid every 24 hours until control is achieved and only to maintain the level of Kathon MWC microbicide in the final use dilution fluid at 141.585 ppm (49.205 ppm active ingredient).

SUBSEQUENT DOSE After establishing microbial control or to prevent fouling of a clean system, maintain the system at 49.205 ppm active ingredient by the addition of 14.58 lbs. (18.75 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of fluid every 1-3 weeks. Alternatively, add 14.58 lbs. (18.75 fl. oz.) of Kathon MWC microbicide per 1,000 gallons of make-up fluid. A change in frequency of treatment may be required depending upon the rate of dilution of the preservative with the make-up fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.

Kathon MWC microbicide weighs 9.9 pounds per gallon.

STORAGE AND DISPOSAL

PROHIBITIONS

This product is corrosive to mild steel. Do not store or transport in unlined metal containers. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

METAL CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

PLASTIC CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

GENERAL

CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

MADE IN U.K.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE

**CAUSES IRREVERSIBLE EYE DAMAGE
CAUSES SKIN BURNS
MAY CAUSE ALLERGIC SKIN REACTION
MAY BE HARMFUL IF INHALED
HARMFUL IF SWALLOWED
MAY BE FATAL IF ABSORBED THROUGH
THE SKIN**

Do not get in eyes, on skin, on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing vapor or mist. Avoid contamination of food. Do not take internally. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lake, stream, pond, estuaries, oceans, or public waters unless the product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

CONDITIONS OF SALE AND WARRANTY

Rohm and Haas warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. **ROHM AND HAAS MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE.** Handling, storage and use of the product by Buyer or User are beyond the control of Rohm and Haas and Seller. Risks such as ineffectiveness or other unintended consequences resulting from but not limited to, failure to follow label directions will be assumed by the Buyer or User. **IN NO CASE WILL ROHM AND HAAS OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.**
