OFFICE OF PESTICIDES AND TOXIC

Dr. Ann M. Tillman, Ph.D. Rohm and Haas Company 100 Independence Mall West Philadelphia, PA 19106-2399

FEB - 7 2000

Dear Dr. Tillman:

Crab-Buster[®] 2 F. G. Lawn and Ornamental Herbicide Subject: EPA Registration No. 707-247 Application and Letter Dated October 27, 1999, Request To Amend Registration To Clarify Use Directions, Add Ornamental Species and Specify Use Rates for New York; and Letter Dated January 24, 2000, Resubmission To Add New York State Restrictions, and To Clarify Claims for Ranges of Dosages

The proposed labeling submitted with your January 24, 2000 letter has been reviewed and found acceptable under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, provided that you revise the labeling as indicated by the following comments:

- 1. Revise the statements on the labeling regarding restrictions of use in the State of New York by adding the words "the State". These statements should read "In the State of New York,".
- 2. Submit one (1) copy of your final printed labeling before your release the product for shipment, under the subject amended labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA, section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Joanne I. Miller Product Manager (23)

Herbicide Branch

Registration Division (7505C)

Enclosure

- M 2 B 1/19/00

CRAB-BUSTER 2 F.G. LAWN and ORNAMENTAL HERBICIDE

CRAB-BUSTER is a selective herbicide that provides control of listed annual grasses and broadleaf weeds in ornamental landscape areas, established lawns and ornamental turf.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes.

For use on plants intended for aesthetic purposes or climatic modification and being grown in interior plantscapes, ornamental gardens or parks, or on golf courses or lawns and grounds

In New York, do not exceed 0.5 pounds active ingredient Dithiopyr per year and do not exceed 0.25 pounds active ingredient per year in Nassau and Suffolk Counties.

ACTIVE INGREDIENTS

Dithiopyr, 3,5-pyridinedicarbothioic acid, 2-(difluoromethyl)-4-(2-methylpropyl)-6-(trifluoromethyl)-S,S-dimethylester......2.1%
INERT INGREDIENT.......97.9%

TOTAL 100.00%

Product protected by U.S. Patent No. 4,692,184. Other patents pending.

EPA Reg. No. 707-247

Read the entire label before using this product. Use only according to label instructions.

ACCEPTED
with COMMENTS
In EPA Letter Dated

FEB - 7 2000

Under the Federal Insecticide, Fundicide, and Rodenticide Act as amended, for the posticide registered under EPA Reg. No.

NOTICE: Before using this product, read the entire Precautionary Statements, Conditions of Sale and Warranty, Directions for Use. Use Restrictions and Storage and Dispessal Instructions. If the Conditions of Sale and Warranty are not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID: IF IN EYES- Immediately flush with plenty of water. Get medical attention if irritation persists.

IF INHALED- Remove individual to fresh air. Seek medical attention if breathing difficulty develops.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

CAUSES EYE IRRITATION.

HARMFUL IF INHALED.

Avoid contact with eyes or clothing.

Avoid breathing dust.

Wash thoroughly with soap and water after handling.

Remove contaminated clothing and wash before reuse.

Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp. Use with care when applying to turf areas adjacent to any body of water. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

CONDITIONS OF SALE AND WARRANTY

Rohm and Haas warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. ROHM AND HAAS MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the coursol of Rohm and Haas and Seller. Risks such as crop injury, ineffectiveness or other unintended consequences resulting from, but not limited to, weather or soil conditions, presence of other materials, disease, pests, drift to other crops or property or failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL ROHM AND HAAS OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

STORAGE AND DISPOSAL

STORAGE: Store this product only in its original container in a dry, cool, secured storage area. Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, state or local procedures.

EMPTY CONTAINER DISPOSAL: Do not reuse bag. Completely empty bag into application equipment. Dispose of emptied bag(s) in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

SPILL: In case of spill, sweep up material and dispose of material according to "product disposal" directions listed above.

GENERAL INFORMATION FOR TURF USE

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide is a premium quality combination product that provides both weed control and the required nutrients for optimum turfgrass growth all in a single product.

CRAB-BUSTER 2 F.G. contains new CRAB-BUSTER herbicide, a selective herbicide that can be applied up to 4 weeks later than other crabgrass preventers and provide up to 4 months control of crabgrass and other grass and broadleaf weeds, prior to their germination in lawns and ornamental turfgrasses. This product should be applied to lawns and ornamental turfgrasses that are well established (See "Use

Precautions" section below for a list of the tolerant turfgrasses).

This product will not harm nearby established ornamentals when used according to directions, given below.

USE PRECAUTIONS

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide should only be applied to lawns and ornamental turfgrasses that are well established. Use of this product on lawns and ornamental turfgrasses that are not well established, or have been weakened by stress due to mechanical operations, pests, excessive temperatures, or lack of moisture may increase the chances for turfgrass injury. Do not apply to lawns or turfgrasses that are under stress.

	JSTER 2 F.G. ng turfgrasses when used as directed:
Cool-Season Turfgrasses	Warm-Season Turfgrasses
 Creeping Bentgrass Fine Fescues Kentucky Bluegrass Perennial Ryegrass Tall Fescues 	 Bahiagrass Bermudagrass Buffalograss Carpetgrass Centipedegrass St. Augustinegrass Zoysiagrass

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide should be applied in the spring or fall prior to the weed seed germination in established lawns and ornamental turfgrasses.

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide can be applied up to 4 weeks later than other crabgrass preventers and still provide season-long weed control. This is due to the dithiopyr herbicide component of this combination product. CRAB-BUSTER 2 F.G. provides both preemergence control of crabgrass and other weeds when applied prior to their germination, and it also provides postemergence control of seedling crabgrass. The postemergence control provided by CRAB-BUSTER 2 F.G. is limited to crabgrass only and will provide control up to 4 weeks after crabgrass germination. Do not make an application of this product later than 4 weeks after crabgrass germination.

For control of other grass and broadleaf weeds, this product must be applied as a preventative treatment before their emergence. Only crabgrass will be controlled with applications made up to 4 weeks after germination.

Do not expect control with applications made later than 4 weeks after crabgrass germination.

Improved Weed Control may occur when this product is applied within a few days after mowing and further mowing is delayed until the turfgrass has been watered or received rainfall to dissolve the fertilizer granules.

Reseeding, Overseeding, or Sprigging of turfgrasses into areas that have been previously treated with this product should be delayed until after 12 weeks from the time of application. Reseeding, overseeding, or sprigging before 12 weeks or earlier after application may injure or prevent the establishment of the newly reseeded, overseeded or sprigged turfgrasses.

- DO NOT apply more than 0.55 lbs. of this product per 1,000 sq. ft. per application and no more than 1.65 lbs. of this product /1000 sq. ft. per year (1,000 square feet area = 100 feet x to feet).
- In New York, do not exceed 0.5 pounds active ingredient Dithiopyr, per year and do not exceed 0.25 pounds active ingredient per year in Nassau and Suffolk Counties.
- DO NOT use clippings from treated turf for mulching, vegetables or fruit trees.
- Keep people and pets off treated areas until dust has settled.

APPLICATION DIRECTIONS

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide will provide control of crabgrass and other grass and broadleaf weeds when applied prior to germination in established lawns and ornamental turfgrasses.

Weeds Controlled and/or Suppressed by CRAB-BUSTER 2 F.G.

Grass Weeds:	Broadleaf Weeds:	
Annual Bluegrass	Bittercress	
Annual Ryegrass	Buttercup Oxalis	
Barnyardgrass	Carolina Geranium	
Crabgrass	Chickweed	
Crowfeetgrass	Common Lespedeza	
Goosegrass	Common Purslane	
Green Foxtail	Corn Speedwell	
Kikuyugrass (seedling)	Creeping Oxalis	
Perennial Ryegrass	Henbit	
Smutgrass (seedling)	Parsley-piert	
Yellow Foxtail	Pineappleweed	
	Prostrate Spurge	
	Spotted Spurge	
	Yellow Woodsorrel	

APPLICATION TIMING

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide may be applied either in the spring or in the fall for the control of weeds.

When this product is applied in the fall, a sequential or second application must be made the following spring to provide season-long control of weeds.

If this product is applied in the fall, DO NOT reseed, overseed or sprig turfgrasses before 12 weeks after application of this product due to potential turfgrass injury to the newly reseeded, overseeded or sprigged turfgrasses.

Length of Control:

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide will provide up to 4 months of weed control if applied according to label directions.

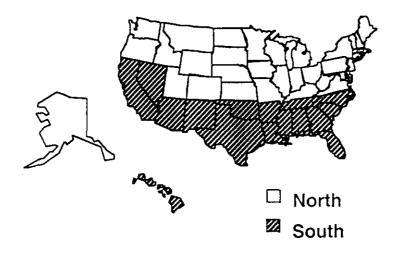

The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and the location or "Region" within the United States that this product is being applied.

Please check the map below to determine the region of the U.S. that applies to your particular use area, and find the number of pounds of this product needed in your area based on the length of weed controlled outlined in the tables below.

POST EMERGENCE CRABGRASS CONTROL

For post emergent crabgrass control, apply this product at the recommended rates when crabgrass is small (3-4 leaf). This product will not control large tillered crabgrass. Applications will control existing crabgrass and prevent further emergence.

Use "Regions" within the United States:

RECOMMENDED USE RATES

		commended Use Rate Table CRAB-BUSTER 2 F.G.			
	(Pounds of this product to apply per 1,000 square feet of turfgrass)				
	Le	ngth of Weed Control	••••		
	<u>2 - 3</u>	<u>3 - 4</u>			
Region of U.S.	Months Control	Months Control	Early Post Emergence Control		
North	0.14 (.128 lb. ai/acre)	0.19 (.174 lb. ai/acre)	0.25-0.55 (0.22-0.50 lb. ai/acre)*.		
South	0.21 (.192 lb. ai/acre)	0.25-0.28 (0.22-0.256 lb. ai/acre)* 0.25-0.55 (0.22-0.50 lb. ai/acre)*		

• Use the higher rate in areas of high weed pressure.

APPLICATION EQUIPMENT AND INSTRUCTIONS

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide can be applied with a drop or rotary type spreader designed to apply granular fertilizers.

For best results, apply this product evenly and uniformly over the turfgrass area avoiding streaking, skips or overlaps. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands.

Before each application, calibrate the spreader according to the equipment manufacturer's directions. Adjust the spreader settings such that the spreader delivers the appropriate application rates of this product as recommended above.

A more uniform application can be made by spreading one-half of the recommended amount of this product over the turfgrass area and then applying the remaining one-half of this product at a right angle to the previous application direction.

Check application equipment frequently to insure equipment is functioning properly and applying a uniform distribution of fertilizer.

GENERAL INFORMATION -LANDSCAPE ORNAMENTALS

CRAB-BUSTER 2 F.G Lawn and Ornamental Herbicide provides preemergence control of listed annual grass and broadleaf weeds in landscape ornamentals. It may be applied to soil surfaces where ornamental plants are grown for aesthetic purposes in ornamental gardens, parks, golf courses and residential properties.

Ornamental plants on this label have shown tolerance to CRAB-BUSTER 2 F.G. when applied as directed. It is impossible, however, to evaluate tolerance for on all ornamental plant species or varietties or under all possible growing conditions. Under your growing conditions, a limited area involving only a few plants should be treated for tolerance evaluation prior to large-scale applications.

USE RATES

Apply CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide with a properly calibrated spreader which will assure accurate, even particle distribution. This product may be applied as a single application or as a split application. Refer to the following table for product recommendations when treating a small area.

• DO NOT apply more than 0.55 lbs. of this product/1000 sq. ft. per application, and no more than 1.65 lbs. of this product /1000 sq. ft. per year.

Pounds	Pounds	Ounces
Product/Acre*	Product/1000 Square Feet*	Product/100 Square Feet*
2.1	0.55	0.88 (25 grams)

* In New York, do not exceed 0.5 pounds active ingredient Dithiopyr per year and do not exceed 0.25 lbs active ingredient per year in Nassau and Suffolk Counties.

APPLICATION TIMING AND RECOMMENDATIONS

CRAB-BUSTER 2 F.G. Lawn and Ornamental Herbicide is a preemergence herbicide that will not control established weeds. Make applications prior to weed seed germination or to bare ground. The best weed control is obtained when applied to soil that is free of clods, weeds and debris such as leaves. Prior to making an application, control existing vegetation by hand weeding, cultivation or with a postemergence herbicide. Once an application of this product has been made, do not disturb the soil surface as the herbicide barrier will be broken.

PRECAUTIONS

- Only apply this product to established ornamentals.
- Do not apply this product directly to bare root of ornamental plants as injury may result.
- Do not incorporate this product into soil. Dilution of active ingredient and possible injury to plant roots may occur.
- Do not apply to soil around ornamental plants that are under stress due to drought, flooding, excessive fertilizer or soil salts, wind injury, hail, frost damage, winter injury, injury from previously applied pesticides or injury due to insects, nematodes or disease.
- To avoid foliar damage to ornamentals, irrigate immediately after application to remove herbicide particles from the foliage.
 - Do not apply under conditions that would affect product distribution. Wind could affect distribution and move product onto sensitive species. Uneven product distribution will result in uneven weed control.
 - Do not apply this product on grasses grown for seed.
 - Do not graze livestock or feed forage cut from areas treated with this product.

TOLERANT ORNAMENTALS

When applied as directed under the conditions on this label, ornamentals listed below have shown to reance in field trials. However, this product has not been tested on all cultivars of each species or under all possible growing conditions. Fellow directions given above to determine plant tolerance under your growing conditions prior to large scale use.

^{*}Ornamental species only: DO NOT USE ON FOOD PRODUCING TREES OR ORNAMENTALS.

WEEDS CONTROLLED

Used as directed, CRAB-BUSTER 2F.G. Lawn and Ornamental Herbicide will control or suppress the following annual grass and broadless when applied prior to their emergence. This product will not control established grasses, except for crabgrass in early stages of development, and broadless weeds, therefore, the area to be treated should be free of weeds prior to application.

GRASSES

barley

Hordeum spp.

barnyardgrass

smutgrass

Sporobolus poireti

BROADLEAF WEEDS

bittercress

Cardamine spp.

carpetweed

Mollugo verticillata

chickweed

Stellaria spp.

geranium, Carolina

Geranium carolinianum

henbit

Lamium spp.

knotweed, prostrate

Polygonum aviculare

lespedeza, common

Lespedeza striata

marestail

Conza candensis

medic, black

Medicago lupulina

mustard

Brassica spp.

oxalis, buttercup

Oxalis pes-caprae

pineappleweed

Matricaria matricarioides

pigweed, redroot

Amaranthus retroflexus

parsley-piert

Alchemilla arvensis

purslane, common

Portulaca oleracea

rocket, London

Sisymbrium irio

shepherdspurse

Capsella bursa-pastoris

speedwell, com

Veronica arvensis

spurge, garden

Euphorbia hirta

spurge, prostrate

Euphorbia humistrata

spurge, spotted

Euphorbia maculata

woodsorrel, creeping

Oxalis corniculata

woodsorrel, yellow

Oxalis stricta

APPLICATION EQUIPMENT AND INSTRUCTIONS

Apply this product with drop or rotary-type spreaders designed to apply granular herbicides. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Before each application, calibrate the spreader according to the equipment manufacturer's directions for adjusting the spreader settings such that the spreader delivers the appropriate application rate recommended above. Apply this product uniformly over the area to be treated. A more uniform application can be made by spreading half of the required amount over the area and then applying the remaining half at a right angle to the previous direction. Avoid streaking, skips, or overlaps during application. Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.
