Ann M. Tillman, Ph.D. Product Registration Manager Agricultural Chemicals Registration and Regulatory Affairs Rohm and Haas Company 100 Independence Mall West Philadelphia, PA 19106

OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Dear Dr. Tillman:

Dimension® 0.25G Turf and Ornamental Herbicide Subject:

EPA Registration No. 707-248

Application and Your Letter Dated March 15, 2000,

Requested Amendments To Labeling

The proposed labeling amendments requested in the subject application to amend the registration of "Dimension 0.25G Turf and Ornamental Herbicide" has been reviewed and found acceptable under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) as amended, provided that you:

- 1. Revise the restrictions for use in New York State on pages 2, and 3, highlighted in yellow, to read: "In New York State, this product may only be used by Professional Applicators at no more than 185 lbs. per acre (4.25oz./1000 sq. ft.), (0.5 lb. active ingredient per acre) per year; and is prohibited from use in Nassau and Suffolk counties."
- Submit one (1) copy of the final printed labeling before you release the product for shipment under the subjet amended labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA, section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

for Joanne JI. Miller

Product Man-

Herbicide Branch

Registration Division (7505C)

DIMENSION® 0.25G

TURF AND ORNAMENTAL HERBICIDE

Dimension is a selective herbicide that provides control of listed annual grasses and broadleaf weeds in ornamental landscape areas, established lawns and ornamental turf, including golf course fairways, roughs and tee boxes.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

For use on plants intended for aesthetic purposes or climatic modification and being grown in interior plantscapes, ornamental gardens or parks, or on golf courses or lawns and grounds.

In New York State, this product may only be used by Professional Applicators at no more than 4.25 lbs. per 1000 square feet per year (0.5 pounds active ingredient) and is prohibited from use in Nassau and Suffolk Counties.

ACTIVE INGREDIENT

*Dithiopyr, 3,5-pyridinedicarbothioic acid, 2-(difluoromethyl)-4-(2-methylpropyl)-6-(trifluoromethyl)-S,S-dimethylester-----0.27%

INERT INGREDIENTS------99.73

100.00%

*This product contains 0.135 pounds of the active ingredient, dithiopyr, per 50 pound bag. Product protected by U.S. Patent No. 4,692,184. Other patents pending

ACCEPTED
with COMMENTS
In EPA Letter Dated

MAR 3 0 2000

Under the Federal Insecticide, Fundicide, and Rodenticide Act as amended, for the posticide registered under EPA Rog. No.

EPA REG NO. 707-248

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID:

IF IN EYES- Immediately flush with plenty of water.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Drift and runoff may adversely affect aquatic organisms. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters

STORAGE AND DISPOSAL

Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

STORAGE- Store this product only in its original container only. In case of spill, sweep up material and dispose of material according to label directions.

DISPOSAL- Wastes resulting from the use of this product that cannot be used or chemically reprocessed should he disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, state or local procedures.

Do not reuse emptied container.

Completely empty bag into application equipment. Dispose of emptied bag(s) in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

REFORMULATION OR REPACKAGING IS PROHIBITED

NOTICE: Before using this product, read the entire Precautionary Statements, Conditions of Sale and Warranty, Directions for Use, Use Restrictions and Storage and Disposal Instructions. If the Conditions of Sale and Warranty are not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

CONDITIONS OF SALE AND WARRANTY

Rohm and Haas warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. ROHM AND HAAS MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of Rohm and Haas and Seller. Risks such as crop injury, ineffectiveness or other unintended consequences resulting from, but not limited to, weather or soil conditions, presence of other materials, disease, pest, drift to other crops or property or failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL ROHM AND HAAS OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

GENERAL INFORMATION

This product is a selective herbicide that provides preemergence control of crabgrass and other susceptible annual grasses and broadleaf weeds in established lawns and ornamental turf. This product will not harm nearby established ornamentals when used according to label directions.

PRECAUTIONS

Use of this product on golf greens is not recommended.

DO NOT apply this product to Colonial bentgrass.

For best results, cultural practices that disturb the soil, such as core, spike, hyro-aerification, or verticutting, and topdressing should be done before application of this product. This product should not be applied until turfgrasses have recovered from stresses related to these or other mechanical operations. Irrigation or rainfall within 7 days after application will improve the performance of this product.

Reseeding or Sprigging.

Reseeding, overseeding, or sprigging of turfgrasses into areas that have been previously treated with this product should be delayed until 12 weeks from the time of application.

If overseeding with perennial ryegrass, overseed 8 weeks or later after application.

When reseeding or overseeding, proper cultural practices such as soil cultivation, irrigation and fertilization should be followed. For best results, use mechanical or power seeding equipment (slit seeders) designed to give good seed-to-soil contact.

This product may be used on seeded, sodded, or sprigged turfgrass that are well-established. Allow the turf to develop a good root system and uniform stand before application.

Use of this product on turfgrass not well-established, weakened by lack of moisture, chemical injury, insects, disease, or temperature extremes that cause stress will increase the potential for injury. Allow turfgrass weakened by these stresses to recover before application of this product.

This product may be applied as a single application or as a split application in the spring, summer or fall.

DO NOT apply more than 185 pounds of this product per acre per application and no more than 555 pounds of this product per acre per year.

In New York State, this product may only be used by Professional Applicators at no more than 185 lbs. per acre per year and is prohibited from use in Nassau and Suffolk Counties.

DO NOT use clippings from treated turf for mulching around vegetables or fruit trees.

DO NOT allow domestic animals to feed or forage on the treated turf or clippings from treated turf.

TURFGRASS

When applied as directed under the conditions described, the following established turfgrasses are tolerant to this product:

Cool-Season Grasses

Bentgrass, creeping* Bluegrass, Kentucky Fescue, fine** Fescue, tall

Ryegrass, perennial

Agrostis stolonifera Poa pratensis Festuca rubra Festuca arundinacea Lolium perenne

Warm-Season Grasses

Bahiagrass
Bermudagrass
Buffalograss
Carpetgrass
Centipedegrass
Kikuyugrass
St.Augustinegrass

Paspalum notatum
Cynodon dactylon
Buchloe dactyloides
Axonopus affinis
Eremochloa ophiuroides
Pennisetum clandestinum
Stenotaphrum secundatum

Zoysiagrass Zoysia japonica

- * DO NOT apply this product to Colonial bentgrass. Use of this product on certain varieties of creeping bentgrass, such as 'Carmen', 'Cohansey', or 'Seaside' will result in undesirable turf injury. Not all varieties of creeping bentgrass have been tested.
- ** The following fine fescue varieties have been found to be sensitive to this product: 'Atlanta', 'Banner', 'Beauty', 'Bilgart', 'CF-2', 'Enjoy', 'HF-93', 'Highlight', 'Ivalo', 'Jamestown', 'Koket', 'Majenta', 'Mary', 'Pennlawn', 'Tamara', 'Tatjana', 'Waldorf', and 'Waldina'.

APPLICATION EQUIPMENT AND INSTRUCTIONS

Apply this product with drop or rotary-type spreaders designed to apply granular herbicides. Calibrate application equipment prior to usage, and apply this product uniformly over the turfgrass area. A more uniform application can be made by spreading half of the required amount over the area and then applying the remaining half at a right angle to the previous. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Avoid streaking, skips, or overlaps during application. Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.

APPLICATION DIRECTIONS

This product provides preemergence control of listed annual grasses and broadleaf weeds when applied prior to their germination in established turfgrass.

CONTROL OF ANNUAL GRASSES AND/OR ANNUAL BROADLEAF WEEDS

This product should be applied prior to the germination of annual grasses and/or broadleaf weeds. Use the higher recommended use rates where weed infestations are dense and/or applications are made early and longer residual control is desirable.

For preemergence control and/or suppression of annual bluegrass and listed winter annual broadleaf weeds, apply this product prior to their germination and emergence. Use the higher recommended use rates where weed, infestations, are dense.

Refer to the following table for recommended use rates of this product for the preemergence control of annual grasses and/or broadleaf weeds.

3

WEEDS CONTROLLED AND USE RATE RECOMMENDATIONS

WEEDS

SUGGESTED USE RATE PER APPLICATION*

	Pounds/A	Pounds/1000 sq. ft.
Crabgrass, Large Smooth Southern Foxtail, Green Yellow	100 to 150**	2.3 to 3.4**
Barnyardgrass Chickweed Clover, hop Crabgrass, tropical Crowfootgrass Dichondra, Carolina Lespedeza, common Kikuyugrass Oxalis, Buttercup Creeping Woodsorrel Yellow Woodsorrel Pineappleweed Ryegrass Annual Perennial Smutgrass Speedwell, corn Spurge: Prostrate Spotted	150 to 185**	3.4 to 4.2**
Bluegrass, annual Bittercress Geranium, Carolina Chickweed	185***	4.2***
Goosegrass Henbit Parsley-piert Pineappleweed Purslane, common Shepardspurse		

^{*}DO NOT apply more than 185 pounds of this product per acre per application and no more than 3 applications per year (555 pounds) of this product per acre per year.

In New York State, this product may only be used by Professional Applicators at no more than 185 lbs. per acre per year and is prohibited from use in Nassau and Suffolk Counties.

^{**}Higher use rates are recommended where weed infestations are heavy and/or dense.

^{***}Use of this product at this rate will provide only partial control and/or supression of listed weeds.

GENERAL INFORMATION ORNAMENTAL PLANTINGS

DIMENSION 0.25G Turf and Ornamental Herbicide provides preemergence control of listed annual grass and broadleaf weeds in ornamental plantings.

Ornamental plants on this label have shown tolerance to DIMENSION 0.25G when applied as directed It is impossible, however, to evaluate tolerance for all ornamental plant species or varieties or under all possible growing conditions. Under your growing conditions, a limited area involving only a few plants should be treated for tolerance evaluation prior to large-scale applications.

USE RATES

Apply DIMENSION 0.25G Turf and Ornamental Herbicide with a properly calibrated spreader which will assure accurate, even particle distribution. This product may be applied as a single application or as a split application. Refer to the following table for treatment dosage for treating small areas.

Pounds Product/Acre	Ounces Product/1000 Square Feet	Ounces Product/100 Square Feet
185	68	6.8 (193 grams)
370	136	13.6
555	204	20.4

APPLICATION TIMING AND RECOMMENDATIONS

DIMENSION 0.25G Turf and Ornamental Herbicide is a preemergence herbicide that will not control established weeds. Make applications prior to weed seed germination or to bare ground. The best weed control is obtained when applied to soil that is free of clods, weeds and debris such as leaves. Prior to making an application, control existing vegetation by hand weeding, cultivation or with a postemergence herbicide. Once an application of this product has been made, do not disturb the soil/meida surface as the herbicide barrier will be broken. This product may be applied in closed structures.

WEEDS CONTROLLED

Used as directed, DIMENSION 0.25G Turf and Ornamental Herbicide will control or suppress the following annual grass and broadleaf weeds when applied prior to their emergence. This product will not control established grasses, except for crabgrass in early stages of development, and broadleaf weeds, therefore, the area to be treated should be free of weeds prior to application. Repeat applications every 3 to 4 months.

Weeds controlled or suppressed by DIMENSION 0.25G Turf and Ornamental Herbicide when applied at 185 lb./acre:

GRASSES		BROADLEAF WEEDS	3
barley	Hordeum spp.	bittercress	Cardamine spp.
barnyardgrass	Echinochloa crus-galli	carpetweed	Mollugo verticillata
bluegrass, annual	Poa annua	chickweed	Stellaria spp.
brome	Bromus spp.	geranium, Carolina	Geranium carolinianum
crabgrass, large	Digitaria sanguinalis	henbit	Lamium spp.
crabgrass, smooth	Digitaria ischaemum	knotweed, prostrate	Polygonum saviculare
crabgrass, Southern	Digitaria ciliaris	Lespedza, common	Lespedeza striata
crowfootgrass	Dactyloctenium aegyptium	lambsquarters	
dallisgrass (seedling)	Paspalum dilatatum	marestail	🚤 Hippuris vulgaris
goosegrass	Eleusine indica	medic, black	Medicago lupulina
foxtail, green	Setaria verdi	mustard	Brassica spp.
foxtail, yellow	Setaria faberi	oxalis, buttercup	Oxalis pes-çaprae
kikuyugrass	Pennisetum clandestinum	pineappleweed	Matricaria matricarioides
oats, wild	Avena fatua	pigweed, redroot	Amaranthus retroflexus
ryegrass (annual & perennial)	Lolium spp.	parsley-piert	Alchemilla arvensis
smutgrass	Sporobolus poireti	purslane, common	Portulaca oleracea
		rocket, London	Sisymbrium irio .
		shepherdspurse	Capsella bursa-pastoris
		speedwell, com	Veronica arvensis,
		spurge, garden	''; 'Euphorbia hirta '
		spurge, prostrateata	* * * * Euphorbia humistrata
		spurge, spotted	Euphorbig macalqta
		woodsorrel, creeping	Oxalis corrièctata
		woodsorrel, yellow	Oxalis stricta • •

In addition to the weeds listed at 185 lb./acre the following weeds will be controlled at 370 lb/acre.

Milkweed, honeyvine	Ampelamus albidus
Ragweed	Ambrosia Artemisifolii
Smartweed	Polygonum pennsylvanicum
Sida, Spiney	Sida spenosa
Medic, black	Medicago lupulina
Signalgrass	
Plantain, broadleaf	Plantago major
Cudweed, purple	Gnaphalium obtusifolium
Clover, low hopp	Trifolium procumbens
Rescuegrass	

In addition to the weeds listed at the 185 lb/acre and the 370 lb/acre rate, the following weeds will be controlled at 555 lb/acre:

١.	C	Canada suda anta
,	Groundsel, common	Senecio vulgaris
,		<u> </u>

APPLICATION EQUIPMENT AND INSTRUCTIONS

Apply this product with drop or rotary-type spreaders designed to apply granular herbicides. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Before each application, calibrate the spreader according to the equipment manufacturer's directions for adjusting the spreader settings such that the spreader delivers the appropriate application rate recommended above. Apply this product uniformly over the area to be treated. A more uniform application can be made by spreading half of the required amount over the area and then applying the remaining half at a right angle to the previous direction. Avoid streaking, skips, or overlaps during application.

Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.

PRECAUTIONS FOR ORNAMENTAL PLANTINGS

- Only apply this product to established ornamentals.
- Do not apply this product to bare roots of ornamental plants as injury may result.
- Do not incorporate this product into soil. Dilution of active ingredient and possible injury to plant roots may occur.
- Do not apply around ornamental plants that have been weakened or are under stress (due to drought, flooding, excessive fertilizer or soil salts, wind injury, hail, frost damage, winter injury, injury from previously applied pesticides or injury due to insects, nematodes or diseases).
- Do not make applications when weather conditions favor drift to non-target areas. This product may injure foliage of non-target plants.
- Do not apply this product on grasses grown for seed.
- Do not graze livestock or feed forage cut from areas treated with this product.
- Do not apply this product in enclosed structures and greenhouses.
- Do not apply another herbicide within 4 weeks of application of this product.

TOLERANT ORNAMENTALS

When applied as directed under the conditions described on this label, ornamentals listed below have shown tolerance in field trials. However, this product has not been tested on all cultivars of each species or under all possible growing conditions. Under your growing conditions, a limited number of plants should be treated for tolerance evaluations, prior to initiating large-scale applications. Follow directions given above to determine plant tolerance under your growing conditions prior to large scale use
