Philadelphia, PA 19106-2399

Attn: Jan Ollinger

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or approval of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3 (c) (7) (A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes:
 - a.. Revise the EPA Registration Number to read, "EPA Reg. No. 707-271."

Signature of Approving Official:

Cynthia Giles-Parker, PM 22

Date:

MAR 30 2001

3. As a condition of registration you will be required to submit additional information and/or data to fill the following data gaps and or deficiencies:

- a. Nature of the Residue - Grapes: Provide the corresponding TLC scans for the initial grape extracts to verify that no changes of the metabolic profile occurred after storage under frozen conditions. The submission of these data must be made by December 2001.
- b. Residue Analytical Method - Plant Commodities: Since Diazomethane is a known carcinogen, you must determine the use of other common derivatizing and/or esterification reagents for this method. The submission of these data must be made by December 2001.

The proposed enforcement methods have been forwarded to ACB/BEAD for petition method validation. This validation has not been completed as of this time. Revision of the methods as per ACB/BEAD comments are a condition of registration of zoxamide for use on grapes and potatoes. Any corrections and revisions must be made prior to harvest of the proposed use or no later than December 2001.

- c. Storage Stability Data: Additional supporting storage stability data are required for the grape processing study. The submission of these data must be made by December 2001.
- d. Toxicology: You must submit a pulmonary sensitization study. A protocol for this study must be submitted to the Agency for review by December 2001. Once the Agency has approved your protocol, the study must be submitted to the Agency within 1 year from the approval date of the protocol.
- e. Occupational Exposure: As part of the Stewardship Plan you are required to submit to the Agency, a plan for monitoring and recording any incidents related to inhalation or dermal sensitization by December 2001. Once the plan has been approved by the Agency you will be required to submit bi-annual reports (June and December) each year after the registration of all products that contain zoxamide.
- f. Product Chemistry: You must submit full scale production data including 5 batch analysis on your products by December 2001.

You must submit 1 year storage stability data for the end use product by December 2002.

- g. Efficacy: You must submit resistance monitoring data for potatoes by December 2001.
- h. Environmental Fate/Ecological Toxicity: You must provide information on the proximity of Federally listed freshwater fish and estuarine/marine invertebrates to the proposed use on grapes.

Submit production information (pounds or gallons produced) for this product for the fiscal year in which the use on grapes and potatoes is conditionally registered, in accordance with FIFRA section 29. The fiscal year begins October 1, and ends September 30. The product information will be submitted to the Agency no later than November 15, following the end of the preceding fiscal year.

This information is to be submitted to:

Registration Support Branch
Registration Division (7505C)
Environmental Protection Agency
Washington, D.C. 20460

A stamped copy of the label is enclosed for your records. Submit two (2) copies of the final printed labels before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
