 <p>U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Antimicrobials Division (7510C) 1200 Pennsylvania Avenue, N.W. Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <u> X </u> Registration <u> </u> Re-registration</p> <p>(under FIFRA, as amended)</p>	EPA Reg. Number: 707-295	Date of Issuance: OCT 22 2002
	Term of Issuance: CONDITIONAL	
	Name of Pesticide Product: "Rocima 607"	
Name and Address of Registrant (include ZIP code): Rohm and Haas 100 Independence Mall West Philadelphia, PA 19106		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA Section 4. 2. Make the following labeling changes: <ol style="list-style-type: none"> a. Revise the EPA Registration Number to read, "EPA Reg. No. 707-295". 		
Signature of Approving Official: Marshall Swindell, Product Manager, Team 33, Regulatory Management Branch I, Antimicrobials Division	Date: OCT 22 2002	

b. Change the first sentence after the title "In Can Preservation" which now reads as "Rocima 607 microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in industrial and household consumer products, ..." to the following, "Rocima 607 microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in the following industrial and household consumer products, ...".

c. Delete "liquid dishwashing detergents". This use is always considered a food contact use which conflicts with the general label restriction against food contact uses. Uses involving human food or drinking water contact require a risk assessment and certain additional toxicology data for both active ingredients (eg., teratology, two-generation reproduction, 90 day oral dog, etc.).

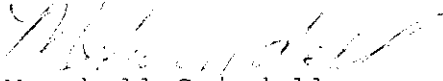

d. Increase the type size of the labeling in the section "Conditions of Sale and Warranty". The type size on the provided labels is less than the 6 point minimum allowed under FIFRA.

3. Submit three copies of a final printed production label which makes the changes listed above.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the label stamped "Accepted with comments" is enclosed for your records. If you have any questions concerning this letter, please contact myself at 703-308-6341, or Tony Kish at (703) 308-9443.

Sincerely,

Marshall Swindell

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT USE FOR ANY DIRECT OR INDIRECT FOOD CONTACT APPLICATIONS

IN-CAN PRESERVATION

Rocima 607 microbicide is recommended as an in-container preservative for the control of bacteria and fungi in industrial and household consumer products, all-purpose liquid cleaners, anti-tarnish products, air fresheners, automotive appearance products, carpet shampoos, cleaners, fabric softeners, liquid dishwashing detergents, liquid laundry products, laundry detergents, polishes, pre-spotters, spray starch and waxes. Add 0.5-4.0 pound Rocima 607 (230-1810 gram) to each 1000 pound (453.6 kilogram) of product to be treated to provide 110-880 ppm active ingredient. To insure uniform distribution, slowly disperse Rocima 607 into product with agitation. Mix thoroughly until evenly dispersed throughout product.

Rocima 607 microbicide is recommended for the control of bacteria and fungi in aqueous raw materials, silicone emulsions and surfactants used in the industrial and household consumer products listed on this label. Rocima 607 microbicide is also recommended for the control of bacteria and fungi in pre-moistened sponges, mops and wipes. Add 0.5 to 4.0 pound Rocima 607 (230-1810 gram) to each 1000 pound (453.6 kilogram) of silicone emulsion, surfactant, or water used to pre-moisten sponges, mops and wipes.

Refer to the table at the end of this section for dosing details for the following applications.

BUILDING MATERIAL PRESERVATION

Rocima 607 microbicide is recommended as an in-container preservative for the control of bacteria and fungi in building materials, mastics, sealants, caulks, joint cements, gypsum, spackling and grouting.

COATINGS PRESERVATION

Rocima 607 microbicide is recommended as an in-container preservative for the control of bacteria and fungi in water-based coatings.

POLYMER LATEX PRESERVATION

Rocima 607 microbicide is recommended for the control of bacteria and fungi in the manufacture and storage of synthetic and natural polymer latices.

ADHESIVE AND TACKIFIER PRESERVATION

Rocima 607 microbicide is recommended as an in-container preservative for the control of bacteria and fungi in water-soluble and water-dispersed adhesives and tackifiers.

MINERAL DISPERSION PRESERVATION

Rocima 607 microbicide is recommended for the control of bacteria and fungi in the manufacture and storage of dispersed minerals.

<u>lb. of product per 1000 lb. fluid</u>	<u>kg of product per 453 kg fluid</u>	<u>ppm of product</u>	<u>ppm active ingredient</u>
0.50 lb.	0.23 kg	500 ppm	110 ppm
4.0 lb.	1.81 kg	4000 ppm	880 ppm

Rocima 607 weighs 9.4 pounds/gallon
