DIRECTIONS FOR USE:

ROACHES AND WATERBUGS: Apply by spraying heavily in all cracks, crevices in **woodwork**, underneath sinks, dark places behind pipes, and in all infested areas, contacting as many insects as possible. Repeat the treatment as often as necessary.

FLIES, MOSQUITOES AND GNATS: Close room, and windows, and discharge spray mist vigorously in all parts of the room, about 2 or 3 ounces for each 1,000 cubic feet of space. Remove pet, birds and cover fish aquariums before spraying. Leave room closed for 15 to 20 minutes, ventilate before re-entering. Sweep up insects and destroy. Repeat treatment when necessary.

FLEAS (INFESTING PREMISES): Remove and destroy fleas by bedding and spray sleeping quarters thoroughly. Treat animal, especially cracks and crevices in the floor and about the animal's quarters as necessary.

CLOTHES MOTHS, CARPET BEETLES (Exposed Storage only): Toss up bags, carpets, and all infested articles, thoroughly. Pay special attention to folds and seams. Interior of closets, drawers, trunks, suitcases, chests, and trunks should be sprayed. Repeat treatment should be repeated every 30 days, and every 30 days for 3 months to 1 year.

Granary weevil, rice weevil, confused flour beetle, flat flour beetle, sawtooth grain beetle, rusty grain beetle, spider beetle, longhorned grain moth, mediterranean flour beetle, cheese skipper, cheese mite, straw itch mites. Discharge spray into air. Do not breathe spray. Do not inhale spray. Do not get spray in eyes. Do not get spray on skin. Do not get spray on clothing. Do not get spray on food. Do not get spray on children. Do not get spray on pets. Do not get spray on plants. Do not get spray on animals. Do not get spray on birds. Do not get spray on fish. Do not get spray on insects. Do not get spray on anything else.

NEW EXTRA STRENGTH TOX INDUSTRIAL ROACH AND FLY SPRAY

ACTIVE INGREDIENTS 100%
