Cleaning
Compositions

DIRECTIONS FOR USE:

"FOG-9" CONCENTRATE contains pyrethrum and piperonyl butoxide. This combination produces a fog or spray with rapid knockdown and high mortalities to insects.

For Fogging: Use approximately 1 ounce of "FOG-9" CONCENTRATE for each 1,000 cubic feet of space for the control of flies, mosquitoes, gnats and spiders. Remove pets, birds and cover fish aquariums before spraying. Keep doors and windows closed for at least 10 minutes. Sweep up and destroy all fallen insects. Follow recommendations of equipment manufacturer for proper positioning of the fogging machine.

FOR SPRAYING:

Flies, Mosquitoes, Gnats: Close doors and windows. Remove pets, birds and cover fish aquariums before spraying. Direct the spray toward the ceiling. Allow room to remain closed for at least 10 to 20 minutes. Sweep up all dead insects and destroy them. Repeat treatment when necessary. Frequent spraying of breeding places also helps.

CONTAINER DISPOSAL:

For 1 gallon and 6 gallon cans: Do not reuse empty can. Destroy by perforating or crushing. Bury or discard in safe place away from water supplies.

For 30 gallon and 55 gallon drums: Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

Registered: Texas Department of Agriculture
EPA REGISTRATION NO. 713-6

FOG-9

INSECTICIDE

ACTIVE INGREDIENTS:

Petroleum Distillate	98.10%
N-Octyl Bicycloheptene Dicarboximide	1.00%
Technical Piperonyl Butoxide*	.60%
Pyrethrins	.30%
Total	100.00%

*Equivalent to 0.48% (butylcarbityl) (6-propylpiperonyl) ether and 0.12% other related compound.

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. Avoid contamination of feed and foodstuff. Do not remain in treated areas. Ventilate the area after treatment is completed.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

CONTENTS: () GALLONS

Fleas (Infesting Premises): Remove and destroy animal's bedding and spray their sleeping quarters freely, forcing the spray into all cracks and crevices in the floor and about the room. Repeat when re infested.

Roaches, Waterbug: Apply spray in all cracks and crevices in woodwork, underneath sinks, dark places behind pipes, and all places where roaches and waterbugs infest, contacting as many insects as possible. Repeat operation as often as necessary.

Carpet Beetles: Spray liberally infested areas of carpets and rugs, paying particular attention to seams, cracks, crevices, and other hiding places. Repeat as often as necessary.

Ants: Spray on ant-beds or runways, wetting as many insects as possible. Repeat this treatment when necessary.

Designed for use in Cates, restaurants, Food Storage Warehouses, Flour Mills, Meat Packing Plants, Farms, Dairy Barns and the like. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.
