PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals.

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear safety glasses . Harmful if swallowed. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not apply when weather conditions favor drift from areas treated This product is toxic to wildlife. Apply only where dogs and poultry do not have access to the bait. Birds feeding on treated areas may be killed. Do not contaminate water by cleaning of equipment or disposal of waste.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Apply Kwik-Kill Bait late in the day, just before dark. If ground is dry, wet down thoroughly with a garden hose, covering the entire infested area. Then broadcast Kwik-Kill Bait on the ground under plants and shrubs. Repeat application in one week to control new generation hatching from eggs in the ground and invasion from adjoining areas. Kwik-Kill Bait will not injure vegetation if used as directed. "Do not contaminate edible plant parts."

Each pound of Kwik-Kill Bait is sufficient for treating 200 square feet of surface area.

Kwik-Kill Bait, when applied to the soil surface around ornamentals and listed vegetable plants, will kill Cutworms, Slugs, Snails and will generally control moderate infestations of Sow Bugs.
