

CAUTION: Do not use in homes. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist or dust. Avoid getting in eyes, on skin, or on clothing. Wash thoroughly with soap and water after using. If spilled on skin or clothing wash clothing immediately and wash before reuse. Destroy containers when empty, do not reuse. Avoid contamination of feed and foodstuffs. Keep away from children and domestic animals. Malathion may cause cholinesterase inhibition. If poisoning occurs, get prompt medical aid. Atropine (1/100 grain tablets) is antidotal.

This product is poisonous to fish. Keep out of lakes, streams and ponds.

DIRECTIONS FOR USE:

APPLES: For the control of spider mites (European red mite, two-spotted mite, Willamette mite, clover mite), use two, or more applications, as needed, of spray containing 2 to 2½ pounds Green Devil Wettable Powder per 100 gallons water. For control of woolly apple aphid and green apple aphid, use one or more applications, as needed, of spray containing 2 pounds Green Devil Wettable Powder per 100 gallons water. For control of rosy apple aphid use one or more applications of spray containing 2½ pounds Green Devil Wettable Powder per 100 gallons of water.

PEARS: Spider mites, same directions as those for apples. For control of pear psylla on pears, make one or more applications as needed, of a spray containing 2 to 2½ pounds Green Devil Wettable Powder per 100 gallons of water. 1 tablespoonful to 1 gallon water.

E.P.A. Reg. No. 728 - 35

MAKE NO APPLICATIONS LATER THAN 21 DAYS BEFORE HARVEST ON APPLES OR PEARS.
