FLY REPELLENT and WOUND DRESSING

FOR EXTERNAL USES ONLY ON HORSES

A soothing protective dressing for application to superficial cuts, wounds, scratches and bruises on Horses. Repels Horseflies, Deer Flies, Stable Flies and Black Flies from treated wounds.

CAUTION: Keep out of reach of children
Do not use on humans, food producing animals or household pets. Harmful if swallowed. Do not reuse empty container.
Destroy by breaking and burying.

Contents 1 Pint

U.S.D.A. Reg. No. 728-93

DIRECTIONS: Apply liberally to all superficial cuts, wounds, scratches and bruises on Horses. Repeat application as often as necessary. This product is a valuable aid in protecting wounds as healing will be accomplished in a minimum of time. In case of deep or punctured wounds, serious burns or if redness, irritation or swelling persists or increases, consult a veterinarian.

If Screwworms exist, use Pearson's Screwworm Smear EQ335, the identical formula recommended by the Bureau of Entomology and Plant Quarantine, U.S.D.A. for the prevention and treatment of Screwworm infestations in Horses.

NOTICE: Buyer assumes all risks of use, storage and handling of this product not in strict accordance with directions given herewith.
