## KILL HOUSE PESTS

TO KILL FLIES, MOSQUITOES,  
GNATS, FLYING  
MOTHS, WASPS and certain  
other flying insects: Direct  
spray at insects or use as  
follows: Close doors and  
windows, filling infested area  
with mist. Keep sprayed rooms  
closed for 15 minutes. Hold  
valve at least three feet from  
surfaces to avoid possible  
staining.

TO KILL ANTS, ROACHES,  
WATERBUGS, SILVERFISH  
and certain other crawling  
insects: Direct spray at  
insects and into places where  
they hide, such as baseboards,  
cracks, openings around sinks,  
pipes, cupboards, and areas  
around door sills and window  
frames. Repeat treatment as  
necessary.

TO KILL BEDBUGS, FLEAS, SPIDERS,  
CENTIPEDES, CARWAS, CRICKETS,  
BROWN HORN BEETLES, SOY BEANS, CAR-  
PET BEETLES. For bedbugs spray mat-  
ress seams and folds. Spray cracks in  
bed and all hiding places in room. For  
fleas spray pet's sleeping quarters  
and infested floors. For spiders cen-  
ter spider webs, crickets, brown dog  
ticks and sow bugs, direct spray on  
them. Spray crevices and spider webs.  
For carpet beetles hit larvae and  
beetles with insecticide. Spray crev-  
ices, tops and undersides of carpets,  
closets, baseboards, etc. For all above  
pests repeat treatment as necessary.
