

1. Hold trigger about 1/2 inch from surface. Hold trigger about 1/2 inch from surface. This device is designed to spray a coarse wet spray. Spray until surfaces are wet but without dripping.

GULFSPRAY ANT ROACH KILLER - Kills BAYGON for drive out and quick kill roaches with long lasting killing power. Ants and roaches wet with the spray are quickly killed. Surfaces wet with it remain effective for two to four weeks against insects that crawl on them if the spray residues are not removed by cleaning.

ANT ROACH KILLER - Kills roaches resistant to certain chlorinated hydrocarbon and phosphate insecticides. **ANTS WASPS:** Apply to ants and ant trails and window sills, door frames and where they enter house. Spray wasps and wasps nests at night when insects are in nest. Do not spray vegetation. **CRACKS, WATER BUGS, CRICKETS:** Spray heavily into all cracks and behind baseboards and other places where they hide. When insects run out spray them. Repeat treatment as required.

BLACK WIDOW AND OTHER SPIDERS, SCORPIONS, HOUSE CENTIPEDES: Spray places where you see them, such as spider webs, around windows, back of shutters and rainpouts, corners of garages and basements. Treat window sills and other entry points.

SILVERFISH: Spray crevices along baseboards in attic and basement areas. Remove books, spray bookcases, let them dry before returning books. Treat back and beneath bookcases.

CARPET BEETLES: Spray crevices in closets, in wood flooring, along baseboards and underside of carpets. Repeat as necessary.

BROWN DOG TICKS: Spray crevices along wood trim around doors and windows, baseboards, etc. Spray all crevices where dog rests. Treat areas in porch and dog kennels. Fresh bedding should be replaced after spraying. Do not spray pets. Repeat as necessary.

FLIES, MAGGOTS: To aid in keeping garbage can free of flies and maggots, spray inside frequently.
