

Gulfspray

LIQUID BUG KILLER

Formula 5

CAUTION: COMBUSTIBLE MIXTURE

N.Y.F.D.C. of A. No. 833

DO NOT SPRAY NEAR OPEN FLAME AND SPARKS

ACTIVE INGREDIENTS

Petroleum Distillate	98.79%
*O O diethyl O (2 isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate	0.50%
Aromatic Petroleum Solvent	0.41%
Pyrethrins	0.08%
Perfume oil	0.10%
INERT INGREDIENTS	0.12%

*Diazinon

CAUTION: KEEP OUT OF THE REACH OF CHILDREN
Harmful if swallowed. Avoid prolonged or repeated contact with skin. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and foodstuffs. Use only for spot application in the home. Wash thoroughly after using. Do not allow children or pets in treated areas until surfaces are dry. Do not spray humans, pets, plants or food utensils, or use as a "space spray" against flying insects. Persons hypersensitive to ingredients listed above may suffer irritation and should avoid exposure to the spray. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

Remove bird cages and fish bowls while spraying. Asphalt tile, linoleum, and plastic materials may discolor and soften when wet with petroleum base insecticides. Test such materials by spraying or wetting a small area. Do not spray radio or TV cabinets.

ONE U.S. PINT 0.473 LITRE

TO OPERATE: Aim sprayer opening away from you. This sprayer produces a coarse wet spray. Spray until surfaces are wet, but without run-off.

GULFSPRAY LIQUID BUG KILLER FORMULA 5 combines the drive-out and quick-killing action of pyrethrins with the longer-lasting action of Diazinon. Ants and roaches wet with spray are quickly killed. Surfaces wet with it remain effective for several weeks against insects that crawl on them, if the spray residues are not removed by cleaning or wear. Diazinon kills resistant roaches.

ANTS, WASPS: Apply to ant trails, also around doors and windows. Repeat treatment as required. Spray wasps and wasp nests.

ROACHES, WATERBUGS: Spray heavily into all cracks and behind baseboards and other places where they hide. When insects run out, spray them. Repeat treatment as required.

SILVERFISH, CARPET BEETLES, CRICKETS, EARWIGS, BROWN DOG TICKS, CENTIPEDES, SPIDERS, SCORPIONS: Spray localized areas infested by these pests. Repeat treatment as required. For carpet beetles, spray underside and around edge of carpets, under furniture, cracks in floors, closet shelves, and around baseboards. For brown dog ticks, spray framing around doorways, windows, and other crevices.

To aid in keeping garbage cans free of **FLIES** and **MAGGOTS**, spray inside and outside frequently. Keep can tightly closed and spray when ever garbage is added.

TO KILL FLIES, MOSQUITOES, GNATS, FLEAS OUTDOORS: To reduce annoyance, spray outside surfaces of screens, doors, window frames, light fixtures, porches, and other areas where these insects walk. For fleas outdoors, spray kennels and animal pens. Repeat treatment as required.

TO KILL FLIES, MOSQUITOES, GNATS INDOORS: Use **GULFSPRAY FLYING INSECT KILLER**, **GULFSPRAY MULTIPURPOSE INSECT KILLER**, or **GULFSPRAY QUICK ACTION INSECTICIDE** in a hand sprayer.
