Gulf-spray

ACCEPTED

JAN 1, 1971

UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTER
NO. UNDER NO.

quick action
insecticide

Equivalent to 0.10%
of (butylcarbitol) (6-
propyl piperonyl)
ether and 0.02% of
related compounds.

**A SPACE INSECTICIDE
FOR FLYING AND CRAWLING INSECTS**

ONE U.S. PINT 0.473 LITRE

CAUTION: KEEP OUT OF REACH OF CHILDREN
Read Carefully Cautions On Back

GULFSpray QUICK ACTION INSECTI-
CIDE kills insects hit by the mist and leaves
no offensive odor. For best results, use a
GULFSPRAYER. See directions. Complies
with U.S. Dept. Commerce Com. Std.
CS72-64 for Grade AA Household Insecti-
cide (Fly Spray).

ACTIVE INGREDIENTS
Perfume Oil 0.025%
Pyrethrins 0.100%
Technical Piperonyl Butoxide 0.120%
N-allyl bicycloheptene dicarboximide 0.500%
Petroleum Disulfates 99.255%
TOTAL ACTIVE INGREDIENTS 100.000%

Gulfspray

quick action insecticide

CAUTION: COMBUSTIBLE MIXTURE

Do not pour or spill near, or spray toward, an open flame
NYFD C of A No. 833

USDA Registration No. 729-34

GULFSpray QUICK ACTION INSECTICIDE when sprayed as a fine
mist knocks out of the air and quickly kills many flying insects hit
by the spray, including flies, mosquitoes, gnats, moths, and wasps.
It also quickly kills many crawling insects, including roaches, ants,
silverfish, bedbugs, and fleas, that are wet with the spray.

CAUTION: Harmful if swallowed. KEEP OUT OF REACH OF CHILDREN.
Persons hypersensitive to ingredients may suffer irritation and should
not use this spray. Do not direct mist on humans, pets, plants, food
stuffs, or food utensils. Do not remain in treated areas and ventilate
the area after treatment is completed.

Cover bird cages and fish bowls when spraying. Asphalt tile, linoleum,
and plastic materials may discolor and soften, when wet with petroleum
base insecticides. Test such materials by spraying or wetting a small
area. Never use this spray in a dirty or rusty sprayer, or in a sprayer
containing any other material.

FLIES, MOSQUITOES, GNATS, FLYING MOTHS, WASPS and many
other flying insects: Spray insects, or fly room with mist. Close doors
and windows for ten minutes during treatment. Get hornets, wasps,
or other large flying insects.

CLOTHES MOTHS: Kill moths, their eggs and larvae by hitting them
with spray. Moth infested woolen articles should be brushed well, then
sprayed thoroughly, especially in seams and folds. Spray woollens in
use, and top clothes closets every two weeks. Allow sprayed articles
to dry completely before using.

BEDBUGS: Spray slats, springs, mattress, and all joints of bed. Air
mattress until dry. Spray cracks in room and furniture. Repeat when
necessary.

ROACHES, WATER BUGS, SILVERFISH, and many other crawling in-
sects: Spray insects, cracks, and places where they hide. When the
insects run out, spray them.

ANTS, FLEAS: Spray ants and ant trails. Repeat when necessary. To
kill fleas, spray heavily floors, rugs, and lower walls of rooms and base-
ments, and animal sleeping quarters. Repeat until fleas disappear.

SPIDERS, CENTIPEDES, SCORPIONS: Get them with spray.
