quick action insecticide
formula 11

CAUTION: COMBUSTIBLE MIXTURE

Do not pour or spill near, or spray toward, an open flame.
NYFD C of A No. 833
USDA Registration No. 729 37

DIRECTIONS FOR USE

GENERAL: Select a hand or electric sprayer that gives fine particles when using this spray. Do not test by hand. Select a sprayer that gives large wetting spray particles when using this spray. Do not contact spray against live crawling insects. Cover or remove all food, food storage, and food processing surfaces before application. Wash with potable water all food processing surfaces before use. In food processing plants limit applications to those periods when processing is not underway.

TO KILL FLIES, MOSQUITOS, GNATS, SMALL FLYING MOTHS: Close doors and windows. Fog or spray enclosed space at the rate of 1-2 fl. oz. per 1000 cu. ft. Leave room closed 10 to 15 minutes. Open doors and windows and ventilate room before re-entry. Sweep up and destroy killed insects. Repeat application if necessary.

TO KILL GERMAN COCKROACHES: Apply a wet spray thoroughly to infested surfaces and harborage. Fog or spray into all cracks and crevices in a network underneath sinks, dark places behind pipes. Continue as many times as possible with the spray. Repeat application as necessary.

CAUTION

KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Do not apply directly to food. See instructions in general directions when using this product around food or food processing areas. Do not store, pour or spill near fire or open flame. Keep container closed. Store in a cool place.
