

[729-55]

Spray outdoor areas of the yard, patio and lawn ground when there is a breeze or spray in the direction of a slight breeze. Controls flies, mosquitoes and gnats up to 20 feet away using this fog nozzle. Kills and repels mosquitoes, flies, gnats and wasps. This formulation contains an insecticide and a repellent.

Spray from center
when calm

Spray with wind
in person's favor

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING. Point spray nozzle away from face and in the direction of the space to be treated. Press down on button and slowly spray fog to fill the air where flying pests might be. Large areas best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from the treated areas. Allow fog to disperse before re-spraying the treated area. Repeat as necessary.

FLYING INSECTS. Reduce annoyance from flies, mosquitoes, moths and gnats by directing spray from a distance of 4 to 6 feet from flowering plants, shrubbery, and grass to where the insects may be resting. Avoid heavy wetting of plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on wasps and bees. Thoroughly wet the nesting area during the evening when these insects are less active.

CRAWLING INSECTS. Spray directly on ants, centipedes, sowbugs, and spiders. Treat areas around garbage cans, picnic sites and lawn grounds infested by these pests. Also thoroughly spray out hills for beet weevils. Spray in short bursts of 2 seconds at a 4 to 6 foot distance for control of Brown Recluse Spider and Black Widow Spider. Repeat application as necessary.

ACTIVE INGREDIENTS: 0.15 Benzyl 3-tert-butylmethyl 2,2-dimethyl 3-(2-methylpropenyl) cyclopropanecarboxylate 0.250%. Related compounds 0.034%. 2-Hydroxyethyl n-octyl sulfite 0.950%. Related compounds 0.045%. Aromatic petroleum solvent 0.333%. **INERT INGREDIENTS:** 99.861%.

*cis trans isomers ratio: max. 30% (1-cis and min. 70% (1-trans).

WARNINGS: Avoid breathing spray mist. Avoid contact with skin. Harmful if swallowed. Not for indoor use. While spraying for flying insects outdoors hold container 4 to 6 feet away from plants and shrubs. Direct spray to fill the air around these plants without heavily wetting the plant foliage. Avoid smoking while spraying. Cover food before spraying. Do not spray on food crops. Direct spray away from people or animals. Allow spray to disperse for several minutes before entering the treated area.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130 F may cause bursting. Never throw container into fire or incinerator.
