PRIMARY PLANT FOOD SOURCES: Sulphate of Ammonia, Ammoniated Superphosphate, Superphosphate, Murate of Potash.
SECONDARY PLANT FOODS:
 Iron as Fe₂O₃ 1.80%
SECONDARY PLANT FOOD SOURCES: Fritted Iron (FTE)

Manufactured by Scott Chemical Company, Chicago, Illinois 60604, Winter Haven, Florida, Planton, Texas 77007. File Reg. No. 731-736-3324.

DIRECTIONS FOR USE

For ants, cutworms, earwigs, and weevils, and ticks, apply any time insects are a problem. Water in thoroughly to be sure control soaks down into crown of grass plants where insects hide. For crickets, to prevent damage, apply as soon as daily temperatures reach 80°F, and repeat every 2 months.
 Apply 15 pounds of Vigoro Insect Control Plus Fertilizer per 1000 square feet of turf area (20' x 50') using the spreader settings below.

CAUTION

Keep out of reach of children. May be harmful if swallowed. May be absorbed through the skin. May be injurious to eyes and skin.
 Avoid contact with skin, eyes, or clothing. Avoid inhalation of dust. Wash thoroughly after handling. Do not wear contaminated clothing. Do not apply by hand. Keep away from feed, foodstuffs, and water supply.
 Flush contaminated eyes with plenty of water and get medical attention if irritation persists.
 Keep children and pets off treated areas until product is watered in well and lawn is thoroughly dry.
 This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
 Container and waste disposal: Do not re-use container. Destroy by burying with waste or burning. Stay away from smoke or fumes.
NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.
