

RONNEL GRANULES

DIRECTIONS

Apply RONNEL GRANULES evenly over the bedding for swine at the rate of 1/2 pound per 100 square feet of area. The granules may be applied with either a scoop or a can. Mixing with the bedding is not necessary. One treatment will control the lice infestation when the swine use the bedding regularly.

NOTE

Replace the treated bedding with clean, untreated bedding or otherwise remove the swine from the treated bedding two weeks prior to slaughter.

CAUTION

Harmful if swallowed. Avoid prolonged or repeated skin contact. Wash thoroughly after using. DO NOT contaminate feed, food, or water. FOR LIVESTOCK REMEDY—NOT FOR HUMAN USE.

Ronnel is a cholinesterase inhibitor. Atropine or 2-PAM is an antidote. Treat Symptomatically.

WARRANTY: M.F.A. Oil Company warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to M.F.A.
