RE: EPA Reg. No. 748-294

Dear Mr. Brennis:

Per PR Notice 98-10, this is a notification to EPA that PPG is adding the alternate brand name of **Leslie's swimming pool supplies Power Powder Plus** under the Zappit ES Registration No. 748-294. We currently market this product as "Leslie's Power Powder Plus" and are adding "swimming pool supplies" as part of the new label design change. Attached are a completed EPA Form 8570-1, Application for Pesticide Amendment, and a copy of the label for your review.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions, please call.

Very truly yours,

Donna L. Butler

USE ENTIRE BAG IN ONE APPLICATION
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Swimming pool water is subject to a build-up of a wide variety of organic contaminants including swimmmer wastes, such as perspiration, ammonia compounds and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants could lead to the development of noxious odors, irritating waste, and unsightly water clarity problems. These organic wastes which serve as nurseries for bacteria, algae, and other organisms should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity.

Always adjust pH between 7.2 and 7.4 prior to using this product. To offset the organic contamination that builds up in pool water, add 1 pound of this product for every 10,000 gallons of water. Use the total contents of the one pound package all at one time in a single application. Do not add water to this product. Do not use the product in the pool by broadcasting the dry powder over the pool water surface. Do not use the product directly from the container while the pump is running to allow for the best product dispersion. You may also add this product directly into the skimmer while the pump is running. Water are that all other chemicals or debris have been removed from the skimmer before adding product.

Add this product at night or when the pool is not in use. Do not use the pool until the free chlorine residual has dropped below 4.0 ppm as determined by using a test kit. This product should be used weekly during periods of heavy use or when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. Between treatments

LIMITED WARRANTY: The Manufacturer warrants that when this product is stored and used, all in accordance with label directions, that it will be fit for its intended purpose. No other express warranties concerning this product are being made, and any implied warranties as a matter of law shall and exceed the duration of this limited warranty. This Product is not to be used in conjunction with any other product. The Manufacturer will refund your purchase price or furnish you with replacement product, whichever you prefer. This is the Manufacturer's sole liability and is in lieu of any direct, indirect, special or consequential damages. To make a claim under this Limited Warranty, contact the store where you purchased this Product. This Limited Warranty gives you specific legal rights, and you may also have other legal rights which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

with the product continue to maintain the proper water balance and sanitizer level in your pool as recommended on the label of your normal pool sanitizer.
STORAGE AND DISPOSAL:
STORAGE: Keep in original container in a cool, dry, well-ventilated place. Keep container closed when not in use. Keep away from heat sources, sparks, open flames and lighted tobacco products. PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food or feed by storage or disposal. CONTAINER DISPOSAL: Do not reuse container. Recycled material remaining in empty container can react to cause fire. Thoroughly flush empty container with water then destroy by placing in trash collection.
IN CASE OF FIRE: Drench with water. Calcium hypochlorite supplies oxygen; therefore, attempts to smother fire with a wet blanket, carbon dioxide, or a dry chemical extinguisher are ineffective.
IN CASE OF SPILL OR LEAK: Use extreme caution. Consumption may cause fire or violent reaction. If fire or reaction occurs in area of spill, douse with plenty of water. Otherwise sweep up spilled material, using a clean, dry, shov-el and broom and dispose spilled material in water. Then immediately use solution as directed.

Do not get in eyes, on skin or on clothing. Wear goggles, long-sleeved shirt and pants, and wash contaminated clothing and shoes before reuse. May be fatal if swallowed, inhaled to Nose and Throat. Avoid breathing dust.
PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Never add water to product. Always add product to large quantities of water. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reactions leading to fire or explosion. Combination with moisture, acids, organic matter, other chemicals or easily combustible materials such as petroleum or paint products may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of a fire or explosion. In case of contamination or decomposition, do not reuse container. If possible isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.
ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.
