**RE: EPA Reg. No. 748-307, CHES60
Notification of Alternate Brand Name per PR Notice 98-10**

Dear Ms. Mitchell:

This is a notification to EPA that PPG is adding the alternate brand name of "**Zappit Weekly Shock**" under the CHES60 Registration No. 748-307. Attached are completed Application for Pesticide Amendment, EPA Form 8570-1, and two copies of the Zappit Weekly Shock container label for your review. Also attached is a copy of the final printed CHES60 master label updated per your Agency letter dated 1/24/06.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If you have any questions, please call.

Very truly yours,

Donna L. Butler

2. Signature 	3. Title Regulatory Compliance Specialist	
4. Typed Name Donna L. Butler	5. Date 6/19/06	

4/4

STORAGE AND DISPOSAL:

Keep in original container in a cool, dry, well-ventilated place.
Keep container closed when not in use.
Keep away from heat sources, sparks, open flames and lighted tobacco products.
To help maintain product strength, storage temperatures should not exceed 90°F (32°C).
Container Disposal - Do not reuse container. Residual material remaining in empty container can react to cause fire. Thoroughly flush empty container with water then destroy by placing in trash collection.
Pesticide Disposal - Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food, or feed by storage or disposal.
In Case of Fire - Drench with water. Calcium hypochlorite supplies oxygen; therefore, attempts to smother fire with a wet blanket, carbon dioxide, or a dry chemical extinguisher are ineffective.

In Case of Spill or Leak - Use extreme caution. Contamination may cause fire or violent reaction. If fire or reaction occurs in area of spill, douse with plenty of water. Otherwise, sweep up spilled material, using a clean, dry shovel and broom and dissolve spilled material in water. Then immediately use solution as directed.

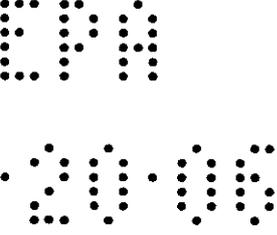

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
DANGER - Highly Corrosive. Causes irreversible eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing and shoes before reuse. May be fatal if swallowed. Irritating to Nose and Throat. Avoid breathing dust.
Physical and Chemical Hazards: Strong oxidizing agent! Mix only with water. **Never add water to product. Always add product to large quantities of water.** Do not mix with any other chemicals.

Do not add this product to any dispensing device containing remnants of any other product. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, acids, organic matter, cleaning chemicals, pool chemicals, or other chemicals or easily combustible materials such as petroleum or paint products may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of a fire or explosion. In case of contamination or decomposition, do not reseat container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

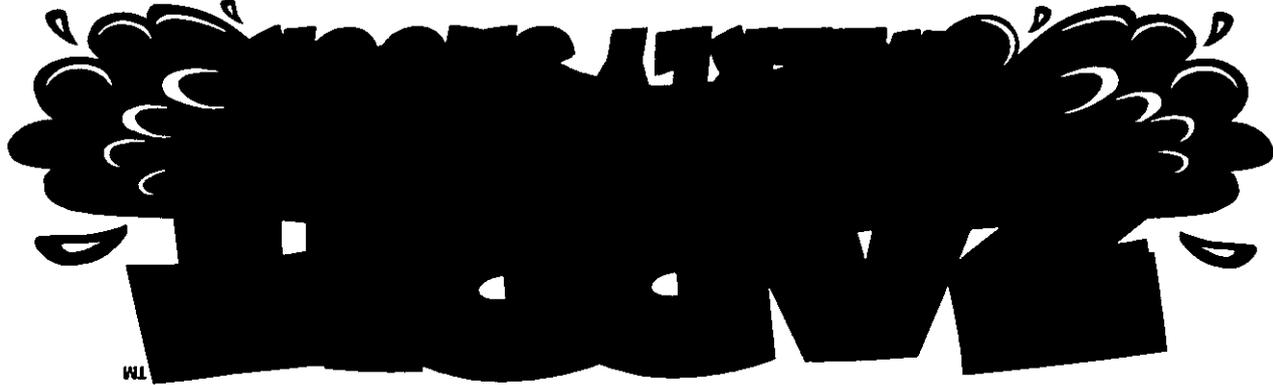

Environmental Hazards: This pesticide is toxic to fish and aquatic organisms.

EPA Reg. No. 748-307
EPA Est. No. 52270-GA-1
LP11535001ZAP-0406A

First Aid:
If eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes; if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If swallowed, call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **Contact: 1-812-434-4515** (Use the toll-free number for 24-hour emergency medical treatment information. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.)

Keep Out of Reach of Children
DANGER Do not mix with other chemicals. Do not add water to product - Add product to water. See additional precautionary statements on back label.

USE ENTIRE BAG IN ONE APPLICATION.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Directions for Use: Swimming pool water is subject to a build-up of a wide variety of organic contaminants including swimmer wastes, such as perspiration, ammonia compounds, and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants could lead to the development of noxious odors, irritating water, and unsightly water clarity problems. These organic wastes which serve as nutrients for bacteria, algae, and other organisms should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity. A 5-10 ppm dose is recommended for Shock Treatment/Superchlorination.

Always adjust pH between 7.2 and 7.4 prior to using this product. To oxidize the organic contamination that builds up in pool water, add 1-2 pounds of this product for every 12,600 gallons of water to yield 5-10 ppm available chlorine. (Use the total contents of the one-pound package all at one time.) **NOTE: Never add water to product. Always add product to large quantities of water.**

Add this product to the pool by broadcasting the dry granules over the pool water surface in the deepest end of the pool. Do this while the pump is running to allow for the best product dispersion. You may also add this product directly into the skimmer while the pump is running. Make sure that all other chemicals or debris have been removed from the skimmer before adding product.

Add this product at night or when the pool is not in use. Do not use the pool until the free chlorine residual has dropped below 4.0 ppm as determined by using a test kit. This product should be used weekly during periods of heavy use or when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. Between treatments with this product, continue to maintain the proper water balance and sanitizer level in your pool as recommended on the label of your normal pool sanitizer.

For specific literature on other accepted uses, contact PPG.

Net Weight 1 lb. (453.6 G.)
One PPG Place, Pittsburgh, PA 15272
Manufactured by PPG Industries, Inc.

(Minimum 5.75% Available Chlorine)

Active Ingredients: Calcium Hypochlorite 60%
Chlorine 40%

- Buffers (easier to maintain pH balance in pool)
- Destroys Organic Contaminants!
- Restores a Crystal Clarity To Pool Water
- For use with all pool surfaces
- 1 lb. Treats up to 12,600 Gallons
- Fast Dissolving
- Controls Algae!
- Kills Bacterial!

DO NOT USE FOR SWIMMING POOL WATER
