VEGETABLE CROPS

RUST: Beans.

RED SPIDER: Beans, Strawberry, Turnips.

PEACHES — PLUMS

BROWN ROT AND SCAB.

DIRECTIONS FOR USE

NUTONEX may be used as a dust or spray. In most cases dusting will prove satisfactory but if a spray is desired this material should be used at the rate of 6 level tablespoons per gallon of water. To control diseases applications should usually be made at 5 to 7 day intervals beginning when the disease first appears, before it becomes widespread. Applications should be continued until all danger from the disease has past.

During periods of humid or rainy weather when conditions are favorable for disease development and spread, it may be necessary to make applications as often as every 2 to 3 days.

To control an infestation of red spiders 2 to 3 applications at 5 to 7 day intervals should be made.

CAUTION: Avoid contamination of feed and foodstuffs. Do not apply this material to Cucumbers, Melons, or Squash. Avoid applying this material during very hot periods of the day.

NOTICE: Woolfolk Chemical Works, Ltd. makes no warranty, expressed or implied, concerning this material, except that it conforms to the chemical description on the label. Neither Woolfolk Chemical Works, Ltd. nor the seller shall be held responsible in any manner for any personal injury or property damage or other type of loss resulting from the handling, storage or use of this material. The buyer assumes all risk and liability therefrom and accepts and uses this material on these conditions.
