GUARANTEED ANALYSIS

Total Nitrogen	24.00%
Nitrate Nitrogen	0.00%
Ammonia Nitrogen	2.35%
Water Soluble Organic Nitrogen	21.65%
Water Insoluble Nitrogen	0.00%
Available Phosphoric Acid (P ₂ O ₅)	4.00%
Soluble Potash (K ₂ O)	8.00%
Chlorine, not more than	8.00%

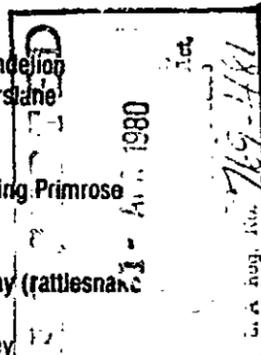

Derived from: Urea, Triple Superphosphate, Murate of Potash and Ammonium Sulphate.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

WEEDS CONTROLLED OR SUPPRESSED:

Annual bluegrass (Poa Annua)	Common dandelion
Annual sowthistle	Common Purslane
Annual Clover	Crabgrass
Black medic	Cudweed
Blue toadflex	Cutleaf evening Primrose
Bull paspalum	Dichondra
Buckhorn plantain	Dollarweed
Burclover	Florida betony (rattlesnake weed)
Carolina geranium (cranesbill)	Florida pusley
Chickweed (common & Mouseear)	(Cont. on side panel)

AMOUNT TO USE:

Apply SECURITY Super Weeder-Feeder at the rate of 12½ lbs. per 2500 square feet and water in well.

WHEN TO APPLY:

For best results, apply before weeds come up. Established weeds are more difficult to control and may require an application in the spring and in the fall. Usually applications made between January 1 and March 31 give the best control although applications may be made through June 15 with good control of most weeds listed. To control certain winter weeds such as henbit, chickweed, rabbit tobacco, Florida betony and evening primrose, a fall application will be required.

IMPORTANT - USE PRECAUTIONS: DO NOT APPLY THIS PRODUCT ON OR OVER THE ROOT ZONE OF ORNAMENTAL TREES, SHRUBS, BEDDING PLANTS, FLOWERS OR GARDEN PLANTS OR INJURY TO THESE PLANTS MAY RESULT.

Do not apply to lawns containing grasses or mixtures of grasses other than those listed on the label or injury to these grasses may result. Do not apply to newly seeded Zoysia, Centipede and Carpetgrass lawns until after the new grass has been mowed at least twice.

Do not plant sprigs for one month, or sow new grass seed for six months following application of this product. SECURITY Super Weeder-Feeder may be applied to newly sprigged St. Augustine and Zoysia lawns one week after sprigging to prevent competition from germinating weeds. Do not plant any crop (flower or vegetable gardens) to treated areas for 18 months or injury may result.

Apply this product only when grass blades are dry. When daytime temperatures are 80°F. or above, water sufficiently to rinse particles off the grass blades.

NOTICE: The seller makes no implied warranty of merchantability nor any other warranties which extend beyond the description on this label.
