CONTAINS: DIAZINON, DACONIL 2787 AND SULPHUR

ACTIVE INGREDIENTS:

O,O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl)phosphorothioate\* ----- 4%  
Chlorothalonil (tetrachloroisophthalonitrile)\*\* ----- 5%  
Sulphur ----- 20%

INERT INGREDIENTS: ----- 71%

TOTAL 100%

EPA Reg. No. 769-

EPA Est. 769-GA-1

\*Diazinon is a reg. TM of Ciba-Geigy Corporation.

\*\*Daconil 2787 is a reg. TM of Diamond Shamrock and is covered under U. S.

Patent No. 3,290,353 and No. 3,331,735.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician immediately.

IF INHALED: Remove victim to fresh air and apply respiration if needed.

IF ON SKIN: Wash with soap and water. Get medical attention if irritation persists.

IF IN EYES: Flush eyes with water for 15 minutes and call a physician immediately.

NOTE TO PHYSICIAN: If signs of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine sulfate.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION. Harmful if swallowed. May cause eye and skin irritation. Skin contact may cause allergic reaction. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling and before eating or smoking. Avoid contamination of food and feed. Do not store near food or feed products. Avoid inhalation of dust. Keep children and pets off treated areas until this material is washed into the soil and grass is dry.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on this label.

PROTECT BEES: This product is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the treatment area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

SECURITY ROSE & FLOWER DUST CONTROLS THE FOLLOWING INSECTS AND DISEASES ON ROSES, FLOWERS AND SHRUBS: Aphids, Bagworms, Mites, Flea Beetles, Lacebugs, Leafhoppers, Leaf Miners, Mealybugs, Webworms, Whiteflies, Tent Caterpillars, Scale Crawlers, Powdery Mildew, Leaf Spot and Black Spot.

769-5245

Apply by dusting in early morning or late evening when the temperature is low and the air is still. Do not treat during excessively high temperatures (above 85° F) or foliar burn may occur. Apply so all exposed plant parts are contacted, especially upper and lower leaf surfaces.

FOR INSECT CONTROL: Treat thoroughly when damage or insects first appear. Repeat as necessary.

FOR DISEASE CONTROL: Start regular preventative program of treatments as soon as foliage appears. Under normal conditions, apply every 7 to 10 days during growing season. Treat at least weekly during periods of moderate infection and twice weekly during periods of rapid new growth or severe infection caused by high humidity or continuous summer rains. Reapply after irrigation or rainfall.

NOTE: Do not use on ferns, poinsettias, hibiscus or gardenias or injury may occur. Do not use within 10 days of an oil spray.

HANDY REFILLABLE SQUEEZE DUSTER. This container is also a squeeze applicator. To dust, lift hinged cap and squeeze container. Hold duster 8 to 10 inches from the plant receiving the dust and cover the entire plant with a thin film of dust. To refill container, remove bottom closure.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal of this product. When empty duster is discarded, wrap container and place in trash collection.

NOTICE: The seller makes no implied warranty of merchantability nor any other warranties which extend beyond the description on this label.

769-525

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin - Remove contaminated clothing and wash affected areas with soap and water.

If in eyes - Flush eyes with plenty of water. Call a physician immediately.

Note to Physicians: If signs of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-PAK is also antidotal and may be administered in conjunction with atropine sulfate.

- e. In the section that is titled "Handy Reliable Squeeze Duster" it would be highly desirable to include a sentence that cautions the user to refill the duster only with Security Brand Rose and Flower Dust.
- f. The proposed label submitted on March 10, 1962 failed to conform to type size requirements for several label elements (i. e., Keep out of Reach of Children, and Signal word). The labeling requirements of the FIFRA, as amended is enclosed to aid you in conforming to type size requirements in your final printed labels.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
